## TAXES.

To the Honorable the Common Council.  
Gentlemen—Your Committee on Taxes, to whom was referred the petition of F. C. Trowbridge to be paid the amount of a sidewalk assessment bid in by the city, respectfully report that we have carefully considered the matter and recommend that his prayer be denied, for the reason that the contractor has no claim against the city, and must look to the lien against the land for satisfaction.

Kantzler, for the refunding of a tax paid on a personal assessment, respectfully report that we have considered the matter and recommend that his prayer be denied, for the reason that if any one sees fit to pay an assessment that he is not legally bound to pay he has no right to come to this body for relief. To the Honorable the Common Council.  
Gentlemen—Your Committee on Taxes, to whom was referred the petition of the Michigan State Board of Fish Commissioners to strike from the rolls the assessment against the property leased and occupied by them at the northeast corner of Champlain street and Joseph Campan avenue, respectfully report that a resolution was adopted by the Common Council June 28, 1887, directing the same to be done. We are advised by the Receiver of Taxes that, acting under the authority then given, he will cause the assessment against their property to be cancelled, and that no further action by this body is necessary.

GEO. F. REICHENBACH,  
JAMES TIERNEY.

Accepted and adopted.

## FROM THE SAME.

To the Honorable the Common Council.  
Gentlemen—Your Committee on Taxes, to whom was referred the petition of A. R. & W. F. Linn for the reduction of an assessment on personal property, respectfully report that from the evidence submitted to your committee it appears that the petitioners were assessed at \$33,170; that they came before the Board of Review with an inventory and the board reduced their assessment to \$27,670, the amount of the inventory, and a reduction of \$10,500. It seems that the firm were about to go into liquidation, and soon after closed out all their stock for the benefit of their creditors. It was their duty and privilege to come before the committee appointed by the Common Council to redress any alleged injustice in the amount of the assessment, or to show that their prop-

erty had been distributed among their creditors and have the entire assessment stricken from the rolls. This action they failed to take, and they can not now ask for relief from a burden occasioned by their own neglect. They have the sympathy of your committee, but we are sworn to administer the law as we find it. We recommend that their prayer be denied.

Respectfully submitted,  
SEYMOUR FINNEY,  
GEO. F. REICHENBACH,  
JAMES TIERNEY.

Accepted and adopted.

## STREET OPENINGS.

To the Honorable the Common Council.

Gentlemen—Your Committee on Street Openings, to whom was referred the petition of V. P. Bayley and others for the opening of an alley in the block bounded by John R and Woodward, Montcalm and High streets, respectfully report that they have examined the matter and find that there is a great objection to opening the alley as proposed on the part of a number of property owners, and that the expense would probably be greater than the adjoining property could afford to bear. This being the case, and the property not needing such an alley for proper drainage, your committee recommend that the petition be denied.

Respectfully,  
FERDINAND AMOS,  
JAMES HARTNESS, JR.

Accepted and adopted.

## FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Street Openings, to whom was referred the petition of James Pound and others for the opening of Eleventh street from Michigan avenue to Laverette street, respectfully report that they have examined the same and find that such a street would be a great benefit to the public, and therefore recommend that the petition be granted and the City Attorney directed to institute the necessary proceedings for opening the same under the general state law.

Respectfully,  
FERDINAND AMOS,  
JAMES HARTNESS, JR.

Accepted and adopted.

## FROM THE COMMITTEE ON ORDINANCES.

To the Honorable the Common Council.

Gentlemen—Your Committee on Ordinances, to whom was referred the matter of an ordinance granting to A. E. Viger the privilege of constructing a side track in Francis street and across Seventeenth street, herewith submit the proper ordinance for such purpose.

Respectfully,  
D. C. KELLOGG,  
MIKE MCGUIRE.

AN ORDINANCE authorising Alexander E. Viger to construct and maintain a side track on Francis street and across Seventeenth street.

It is hereby ordained by the people of the city of Detroit.

Section 1. Consent, permission and authority are hereby granted to Alexander E. Viger to construct, operate and maintain a single railway track along the north side of Francis street, between Eighteenth and Seventeenth streets and across Seventeenth street, so as to connect the premises of said company with the railway premises of the Michigan Central Railroad Company.

Sec. 2. Said track shall be laid under the supervision of the Board of Public Works, shall conform to the grade of the street, and in a manner as to least interfere with ordinary travel on said street, and shall be laid along the northern side of said Francis street, from Eighteenth street to a point 20

feet westerly of the westerly line of Seventeenth street, and thence by as short a curve as may be practicable to the Michigan Central Railroad Company's right-of-way: provided that such track shall not occupy more than 10 feet in width of the north side of said Francis street.

Sec. 3. Said grantee is authorized to use said railway or track only for the purpose of such lawful business as may be conducted and carried on upon the premises by the occupants thereof. Steam power may be used to propel the cars to be used in said railway, and said cars may be run at irregular hours—the entire design of this grant being to permit transportation from the premises of said grantee.

Sec. 4. The grantee shall keep the surface of the street, as occupied by said track, in good order and repair, and shall fully indemnify and save harmless the City of Detroit from any and all claims or damages for which said city might be made or become liable to pay by reason of the construction, making or operating of said track, or the giving or allowing of the license, right and privileges hereby granted.

Sec. 5. The privileges hereby granted shall in no wise restrict or alter the right of the City of Detroit, or any of its authorized municipal boards or officers, to enter upon said street and occupy the same in completing public works or for general public purposes.

Sec. 6. No car or the engine thereto attached shall be allowed to remain or stop on said street so as to obstruct the free and ordinary use thereof, and no cars shall be permitted to remain on said track during the hours of the day or night, except while being unloaded.

Sec. 7. It is hereby reserved to the Common Council of the city of Detroit the right to make amendments to this grant and ordinance, and such other rules, orders or regulations as may from time to time be deemed by the Common Council necessary to protect the interest, safety, welfare or accommodation of the city and public in relation to said railway.

Sec. 8. This ordinance shall take immediate effect when written acceptance of the terms thereof shall be filed in the office of the City Clerk of the City of Detroit by said Alexander K. Viger, and shall be limited in its operation to a period of seven years from and after the time of its taking effect.

Accepted, read twice by title and laid on the table and ordered printed in the proceedings.

#### PUBLIC LIGHTING.

To the Honorable the Common Council.

Gentlemen—Your Committee on Public Lighting, to whom has been referred the various petition and resolutions for additional electric tower and pole lights, respectfully report that after a very thorough and careful investigation of the subject with the Aldermen of the different wards, and the officers of the Brush Electric Light Co., we placed the sum of \$140,000 in the estimates for public lighting for the fiscal year 1888. This sum was reduced by the Board of Estimates to \$130,000. The three years' contract with the Brush Electric Light Co. calls for \$117,940 per annum, which leaves only \$12,060 for additional lights, in consideration of which we recommended that the following towers and pole lights be ordered erected, viz:

#### Towers.

At the corner of Gratiot and Mt. Elliott, Arndt and McDougall, St. Aubin and Ferry, Trombley and Russell, Russell and Ferry, Beaubien and Ferry, Columbia and Clifford, Grand River and Third, Kirby and Lincoln, Eighteenth and McGraw, Twenty-fifth and Myrtle, Boulevard and Canfield, Welch and Horatio, and Thirtieth and Buchanan.

#### Poles.

At the corner of Clinton and Beaubien, Dalzelle and Fourteenth and Military and Dix.

The erection of the above described towers and poles will bring the cost of public lighting up to about the sum of \$130,750. As the erection of two of these towers will displace four pole lights, and as President Leggett of the Brush Electric Light Company has informed your Committee that his company will deduct the cost of the four poles displaced, say about \$730 per annum, it would leave the cost of the public lighting at about \$130,020 for the fiscal year.

Respectfully submitted,

FERDINAND AMOS,  
FRANK SMITH,  
JACOB F. MEIER,

Accepted and on leave the following was offered:

By Ald. Amos.

Resolved, That the Brush Electric Light Company be and they are hereby directed to erect towers and poles at the places named in the above report, and when erected to displace and discontinue the following pole lights, viz.: At the corner of Park and Montcalm, Clifford and Elizabeth, Park and High and Kirby and Lincoln streets.

Adopted as follows:

Yeas—Ald. Amos, Bleaser, Burt, Fairbairn, Gilmore, Griggs, Guiney, Hartness, Hayes, Hollman, Jacob, Karrer, Kellogg, Lander, McGuire, McIntyre, Martz, Meier, Peterkin, Pfeiffer, Reichenbach, Reeves, Smith, Tierney, Uthes and the President—26.

FROM THE CITY COUNSELOR.

To the Honorable the Common Council,  
Gentlemen—In the case of the City of Detroit, against Amos Chaffee, the Supreme

Court having held Chaffee liable for the judgment in the Thomas case, Chaffee now desires to pay that judgment amount to \$2,500, with the interest at 7 per cent since Dec. 23, 1898, out of the award of Emily S. Chaffee in the Willis avenue case, and also to offset his assessment in the Willis avenue case against the award to Emily S. Chaffee.

His assessment in that case is \$6,750, and I recommend that the City Treasurer be instructed to execute to Amos Chaffee, a receipt in full for his assessment in the Willis avenue case, upon receiving from Emily S. Chaffee a receipt for a like assessment, as having been paid upon the award made to her, in said Willis avenue case, and that I be authorized to enter satisfaction in the case of the City against Amos Chaffee, whenever said Emily S. Chaffee shall have executed and delivered to the City Treasurer, a receipt for so much of the award made to her in the Willis avenue case as shall satisfy the judgment and interest in the case of Thomas against the City, and said Amos Chaffee shall pay the costs in the suit of the City against said Amos Chaffee.

Whereas, The said Amos Chaffee desires to offset the amount of his assessment in the Willis avenue case, as well as the amount of the claim of the City of Detroit aforesaid, against the award made to Emily S. Chaffee in the Willis avenue case, and the said Emily S. Chaffee consents thereto.

Be it resolved, That the City Treasurer be and he is hereby authorized to receipt to the said Amos Chaffee, for the amount of his assessment in the Willis avenue case, on receiving from Emily S. Chaffee a receipt for a like sum, to apply upon the amount of the award made to her in said matter.

Chaffee shall execute and deliver to the City Treasurer a receipt for the amount of the judgment in the case of Elizabeth C. Thomas against the City of Detroit, to wit: The sum of \$2,500, with interest from December 23, 1898, to the date of the deposit of such receipt to apply upon the amount of the award made to the said Emily S. Chaffee, in the Willis avenue case, and to be in full satisfaction of so much thereof.

The City Counselor is authorized and directed to satisfy the claim of the city of Detroit against said Amos Chaffee in the suit now pending in the Circuit Court for the county of Wayne, wherein the City of Detroit is plaintiff and said Amos Chaffee is defendant.

Resolved further, That upon filing of the receipt last aforesaid of said Emily S. FROM THE CITY ATTORNEY.

To the Honorable the Common Council.

Gentlemen—In the matter of opening Harper avenue from Russell street to Mt. In view of the changed conditions I would recommend that your honorable body have the cases now in court and those pending in my office re-examined and revised, so that I may proceed under the general law and in accordance with your directions as speedily as possible.

Respectfully,

WM. S. SHERMAN,  
City Attorney.

## PARKS.

To the Honorable the Common Council.  
Gentlemen—Your Committee on Parks, to whom was referred the communication from the Board of Park Commissioners, transmitting a copy of the resolutions adopted by them in relation to dredging a canal to make

a landing for scows to deliver the ashes, street sweepings and surplus earth from excavations in the city to Belle Isle, to be used in filling up the low spots on the island, as appears in the journal of this house of May 15, respectfully report that we have carefully considered the matter with some of the members of that commission and we are satisfied that the best interests of the city will be served by adopting some plan to carry out the suggestions embodied in the resolutions. Over one-half of the 700 acres comprising the island are only from 12 to 24 inches above the level of the river. The cutting of canals, putting in drains, removing of the underbrush and the lower limbs of the trees to let the sunlight in has caused the earth around a great many trees to dry away from the roots, thus imperiling the life of the trees, which are the glory of the island. If the street sweepings are put around them and a covering of ashes put on top of that the trees will be saved, the park leveled up, the ground made higher and a simple, inexpensive and proper disposition made of the ashes, street sweepings and dirt of the city. The island belongs to the people, and so do the street sweepings, and we submit that it is a better business policy to use this refuse for the improvement of the park than to cart it away, at the people's expense, for the improvement of individual property owners. We believe it wiser and better to fill up the marshes at the north and east ends of the island than to dredge them out and make more water space. There is water enough in the river and room enough on the island to receive all the dirt and ashes the city will have to dispose of for 10 or 15 years to come. That intelligent action may be taken on this important matter, we recommend the adoption of the resolution presented herewith.

Respectfully submitted,

WILLIAM UTHES,  
CHAS. P. KARRER,  
FRANK J. BLESER.

Accepted and on leave the following was offered:  
By Ald. Uthes.

Resolved, That the Board of Public Works be and they are hereby directed to ascertain from the proper parties, and report to this Council at its next session, the cost of two (2) scows, to be owned by the city and used for conveying the refuse dirt, ashes and street sweepings to Belle Isle or such other place as the Common Council may direct. Also to inquire the cost of taking up one loaded scow, and bringing back the empty one, once a day during the season. Owners of tugs and the Detroit, Belle Isle & Windsor Ferry Co. and the Detroit & Walkerville Ferry Co. to be asked to give a price for this service.

Ald. Hurt moved to amend by having the Board of Public Works advertise five days for bids. Carried.

Objected to and laid over under the rules.

#### COMMUNICATIONS FROM CITY OFFICERS.

FROM THE MAYOR.

To the Honorable the Common Council.

Gentlemen—I herewith return to your honorable body without my approval a resolution adopted at your last session on motion of Ald. Smith, under the terms of which the Controller is directed to enter into daily contract with the Garbage Contractor for the removal and disposition of the city's garbage from May 1 to July 1.

The proposition to antedate the daily contract, while probably not intended by your honorable body, is a part of the resolution, and that alone makes it necessary for me to withhold my approval. But there are other grounds for doing so as well. As yet no ordinance has been provided for regulating the collection of garbage, as it seems necessary there should be. Furthermore, as the regular garbage contract will be in operation at the end of another 80 days, I can see no great pressing need for beginning the work earlier.

Respectfully,

JOHN PRIDGEON, JR.,  
Mayor.

Accepted.

Ald. Trombly moved that the motion by which the contract was adopted be reconsidered.

Carried as follows:

Yeas—Ald. Amos, Bleaser, Burt, Fairbairn, Finney, Gilmore, Griggs, Guiney, Hartness, Hayes, Holihan, Jacob, Karrer, Kellogg, Lally, Lauder, McGuire, McIntyre, Marta, Meier, O'Regan, Peterkin, Pfeifer, Reichenbach, Reeves, Tierney, Trombly, Uthes and the President—23.

Nays—None.

Ald. Trombly moved that the resolution pass notwithstanding the opposition of his honor, the Mayor.

The same prevailed as follows:

Yeas—Ald. Amos, Burt, Fairbairn, Finney, Gilmore, Hartness, Hayes, Holihan, Jacob, Karrer, Lally, Lauder, McGuire, McIntyre, Meier, O'Regan, Peterkin, Pfeifer, Reichenbach, Reesche, Reeves and Tierney—22.

Nays—Ald. Bleaser, Griggs, Guiney, Kellogg, Marta, Trombly, Uthes and the President—8.

## FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—The Board of Public Works, respectfully inform your honorable body that the streets ordered (this year) to be paved under the charter authorizing the Common Council not to contract in any one year to exceed in the aggregate \$100,000 for such purposes, exceeds that amount \$3,879.41. This is owing to the advance over and above the prices paid in former years for work of a similar character. In order that the provision of the city charter limiting the amount to be expended for this purpose may be complied with, it is imperative that the proceedings had in ordering one of the several streets to be paved should be abandoned and declared null and void; also that your honorable body may select the name of the street to be abandoned, submit the names of the streets not already contracted for and the aggregate cost of each, to-wit:

Macomb street.....	\$ 2,808 92
Porter street.....	10,970 82

By Ald. Lander.

Whereas, The Board of Water Commissioners have caused to be put down certain stop-cock boxes, many of which are from two to six inches above the level of the sidewalk, thereby causing obstructions which may involve the city in expensive litigation for damages for accidents; therefore,

Resolved, That the Board of Public Works be and they are hereby directed to notify the Board of Water Commissioners to have the obstructions removed forthwith.

#### FROM THE SAME—MINORITY REPORT.

To the Honorable the Common Council.

Gentlemen—Your Committee on Taxes, to whom was referred the petition of John Beyster, for the refunding of the paving assessment for paving in front of his property on West Woodbridge street, respectfully report that we have carefully considered the matter, and find that the supreme court of the state has declared the grade illegal, and that the late City Counselor, H. M. Dunfield, always held this opinion, and that all the other parties interested have had their assessments cancelled or refunded. We consider it unjust to discriminate against one owner, when all the others have had their assessments returned. We therefore recommend that the prayer of the petitioner be granted, and herewith present the proper resolution.

Respectfully submitted,

JAMES TIERNEY.

Accepted and on leave the following was offered:

By Ald. Tierney.

Resolved, That the City Controller be, and he is hereby authorized and directed to draw his warrant on the proper fund in favor of John Beyster for \$350.74 upon presentation and delivery of the receipt showing that he has paid that amount as an assessment for paving West Woodbridge street Dec. 8, 1884.

Ald. Finney moved the adoption of the majority report.

Lost.

Ald. Tierney moved to amend by substituting the minority report and resolution.

The roll being called the resolution was laid over under the rules.

#### FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Taxes, to whom was referred the petition of McGrath & Wallach for the reduction in the amount of the assessment on their building on Russell street, respectfully report that the application was presented too late for the consideration of the special committee of the Common Council appointed to decide on the assessment rolls. It is not competent for this body to alter or amend the assessment rolls as adopted. The petitioners must abide the result of their own neglect in not appearing before the committee before the time fixed by law for making their report had expired. We therefore recommend that their prayer be denied.

Respectfully submitted,

SEYMOUR FINNEY,  
GEO. F. REICHENBACH.

Accepted and adopted.

#### FROM THE COMMITTEE ON STREET OPENINGS.

To the Honorable the Common Council.

Gentlemen—Your Committee on Street Openings, to whom was referred the communication of the City Attorney relative to the recent decision of the Recorder, in which he held that recent decisions of the Supreme Court rendered the special act for opening streets in this city inoperative and void, respectfully report that they have partially examined the matter and find that it will at present be necessary to proceed under the general state law in such matters. They find that there are twelve cases now in court awaiting trial under the special act, namely: (1) Poplar street, (2) Randolph street, (3) Willis avenue between Grandy and Mt. Elliott avenues, (4) Commonwealth avenue, (5) Trumbull avenue, (6) Cavalry avenue, (7) Antoinette street, (8) Kirby avenue from

Woodward avenue to Russell street, (9) Kirby avenue from Woodward avenue to Cass avenue, (10) Stanley street, (11) Piquette avenue, (12) Frederick street; that there are four streets ready to be filed in court, namely, John R., Rivard, Hastings and Wabash avenue, all to be opened across the railroads.

Your committee recommend that the City Attorney be directed to withdraw all of the above cases from the court, and to proceed at once under the general state law to open the following streets, namely: 1. Randolph street. 2. Commonwealth avenue. 3. Trumbull avenue. 4. John R. street. 5. Hastings street. 6. Rivard street. 7. Wabash avenue.

The whole matter was referred back to the Committee on Street Openings.

#### FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Street Openings, to whom was referred the proposition for the opening of Kirby avenue on the west side, respectfully show that they have examined the same and find the following to be the facts: That a verdict was rendered in the Recorder's Court under the local street opening law for the opening of Kirby avenue from Cass avenue to Grand River avenue; that an appeal was taken from said verdict by A. Cass Canfield, who owned the property between Third street and Cass avenue, who was assessed about \$1100, besides the taking of his land. That April 3 last the Council adopted a resolution agreeing to cancel Mr. Canfield's assessment, provided he would open the street through his land, the intention being to open the street to Grand River avenue if possible. That Mr. Canfield is anxious to have Kirby avenue opened between Cass avenue and Woodward avenue, and if opened between those streets would accede to the proposition for the other opening. That proceedings are pending to open Kirby avenue between Woodward and Cass avenues, and that there have been two verdicts in the case, both of which have been set aside; by the first verdict the city would have had to pay a little over \$5,000, and by the second something less than \$5,000. That the property owners have submitted a proposition for the opening of Kirby avenue, from Cass to Woodward avenues, as follows: the land owners to receive \$10,000, the city to contribute \$5,000, and the adjoining property owners \$5,000. The acceptance of this proposition would ensure the opening from Woodward to Third street.

Your committee are of the opinion that if the acceptance of the proposition would give the opening of Kirby avenue, from Woodward to Grand River avenue, as proposed, it would be better to accept it, and therefore recommend that if the City Treasurer receives the proper assurances from the different persons interested in the verdict for the opening of Kirby avenue from Cass to Grand River avenue, that they are ready to accept the awards and give the proper receipts, that he be directed to proceed and pay the said awards; and that upon the closing of said roll the Controller be directed to draw the proper warrant in favor of George H. Minchner, upon receiving the proper papers dedicating and giving to the public Kirby avenue,

from Woodward to Cass avenue, as proposed.

Respectfully,  
WILLIAM O'REGAN,  
FERDINAND AMOS,  
JAMES HARTNESS, JR.

Further resolved, That when the roll for opening Kirby avenue from Cass to Grand River avenue shall have been finally closed that the Controller be and he is hereby directed to draw the proper warrant in favor of George H. ## FROM THE CITY COUNSELLOR.

To the Honorable the Common Council.  
Gentlemen—Regarding the matter of the proceeding instituted by me under your directions to compel the Detroit, Grand Haven & Milwaukee Railway Company to lower the Congress street bridge, said company promised to reduce the floor of said bridge to the old grade, and I have a communication from the Board of Public Works informing me that "the bridge is now on the same grade with the former bridge."

Unless otherwise advised by you I shall therefore discontinue the case against said company in the Supreme Court.

Very truly,

JOHN W. McGRATH,

City Counselor.

Accepted and the recommendation was concurred in.

## FROM THE SAME.

To the Honorable the Common Council.  
Gentlemen—At the last session of your body a resolution was adopted directing the City Attorney and myself to report to you at this session our opinion as to the title of the city to Clinton Park.

We have given the subject considerable attention and find it necessary to procure an abstract of title, which we have ordered, and after obtaining which we shall be prepared to comply with your directions.

Very truly,

JOHN W. McGRATH,

City Counselor.

Accepted.

Ald. Jacob moved that the City Counselor be and is hereby requested to procure an abstract of title and report to the next session of this Council.

Carried as follows:

Yeas—Ald. Ames, Bleaser, Burt, Fairbairn, Finney, Gilmore, Griggs, Guiney, Hartness, Hayes, Hollahan, Jacob, Karrer, Kellogg, Lally, Lander, McGuire, McIntyre, Martz, Meier, O'Regan, Peterkin, Pfeiffer, Reichenbach, Reschke, Reeves, Smith, Tierney, Trombly, Uthes and the President—31.

Nays—None.

## FROM THE SAME AND CITY ATTORNEY.

To the Honorable the Common Council.

Gentlemen—In accordance with a resolution of your honorable body, by which a compilation of the election laws, prepared under the direction of the judiciary committee of the Common Council of 1887, was submitted to the City Counselor and City Attorney for approval, we beg leave to report that we have examined the same, and we are of the opinion that the compilation is not such as will meet the public need which it was intended to pro-

The compilation before us is not furnished with an index, which seems to us essential in so large a pamphlet. In this respect it does afford the convenient reference so much needed by our election boards.

Since the above compilation was ordered the election laws of the State, with a digest of the Supreme Court decisions and provisions of the constitution and statutes of the United States relating to elections have been published by the Secretary of State, containing a full index, making a volume of two hundred pages. This pamphlet of the general laws, with a printed schedule of such local laws as govern city elections and which are published in sheet form by the City Clerk for distribution, would serve the purpose desired in every respect. It will also be a saving of expense to the city, as the local election laws will have to be amended next winter to cure the defects and omissions caused by recent legislation.

We recommend that sufficient copies of the State publication be procured to be distributed by the City Clerk to the several boards of registration and election for use at the fall elections and that the compilation be not printed at the present time.

JOHN W. McGRATH,  
City Counselor.  
WM. S. SHEERAN,  
City Attorney.

Accepted and placed on file.

#### COMMITTEE ON ORDINANCES.

To the Honorable the Common Council.

Gentlemen—Your Committee on Ordinances, to whom was referred the matter of submitting an ordinance relative to the removal of garbage, respectfully report that they have examined the same and herewith submit an amendment to the present ordinance for that purpose, believing that such an amendment will meet the requirements of the resolution better than a new ordinance.

Respectfully,

D. C. KELLOGG,

MIKE MCGUIRE,

ERNEST L. RESCHKE.

AN ORDINANCE to amend Sections 1 and 2 of Chapter 57 of Revised Ordinances of 1884.

It is hereby ordained by the people of the City of Detroit,

Section 1. That Sections 1 and 2 of Chapter 57, Revised Ordinances of 1884 be and the same are hereby amended so as to read as follows:

Sec. 1. It is hereby made the duty of the occupant or occupants of every dwelling house or other building in the City of Detroit to provide a suitable and tight box, or other vessel, in which such occupant or occupants shall cause to be placed or deposited all the offal, garbage and kitchen refuse of the premises; such occupant or occupants shall keep such box or other vessel in such a place on his premises that the garbage contained therein may be conveniently collected by the garbage contractor or his agent from the alleys where there are alleys adjoining the premises, and where there are no alleys from some suitable and convenient place on said premises.

Sec. 2. Any person failing or neglecting to comply with the requirements of this ordinance shall be subject to prosecution in the Recorder's Court, and upon conviction shall be subject to punishment by fine not exceeding twenty-five dollars, or by imprisonment in the House of Correction not exceeding ten days.

Sec. 3. This ordinance shall take immediate effect.

The ordinance was read twice by title, laid over and ordered printed in the proceedings.

#### BRIDGES.

To the Honorable the Common Council.

Gentlemen—Your Committee on Bridges, to whom was referred the resolution of Ald. Lander in relation to the work on the substructure of the Belle Isle bridge, respectfully report that we have given the matter that careful consideration which its importance demands. We find in the general specifications for the construction of the bridge, clause 6, it provides as follows: "The piers will be of masonry, resting on a grillage of timber, the grillage to be carried by piles. The piles will be cut off to a true and level surface, at such grade as the Board may determine, generally at an elevation of 16 feet below water mark. The grillage will be of solid timber, ordinarily 6 feet thick. The masonry will be started at a level of about 10 feet

below ordinary water mark." It will be seen that power is given the Board to determine the grade at which the piles are to be cut off below water mark, which carry the grillage on which the masonry rests, and that the grillage will ordinarily be six feet thick and the masonry 10 feet thick. The work alluded to in the resolution is on the pier which abuts the shore at the city end of the bridge. We find the grillage only four feet thick, and the masonry only six feet thick, a total shortage of six feet on the thickness set forth in the specifications for grillage and masonry. But as the Board of Public Works, acting under the power conferred upon them, in clause 6, have established the grade for the first pier at an elevation of 10 feet below ordinary water-mark, instead of 16 feet, because there is less depth of water at the shore end, and as they assure your committee that the thickness of the grillage and masonry adopted by them is amply sufficient for the strength and durability of the bridge, we see no cause for this body to order any changes made in the work done.

Respectfully submitted,

JAMES HOLIHAN,

LOU BURT,

J. HAYES,

FRANK N. REVES,

JOHN P. MARTZ,

Accepted and placed on file.

Ald. Reichenbach was excused from further attendance on this session.

#### SPECIAL.

To the Honorable the Common Council.

Gentlemen—Your Special Committee on Ways and Means and Parks, to whom was referred back their report on the communication of the City Counselor and the resolution of Ald. Holihan in relation to the expenditure of the \$30,000 appropriation for the maintenance and improvement of Belle Isle Park for the fiscal year 1888, as appears in the journal of this house of May 24, 1888, and which was unanimously adopted, and afterwards (on May 29) reconsidered, respectfully report that we have had several interviews with the Board of Park Commissioners, and have also visited the island and examined the work done, and the general ground plan adopted by the Board for the future improvement of the Park. We are satisfied with what has been done and heartily approve of the plans proposed to be carried out, and are convinced that the best interest of the development of the Park will be secured by expending all the money at the control of the Board in carrying out the ground plan as submitted in their annual plan, excepting the sum of \$40,000 as set forth in our former report for the maintenance of the Island.

We are also led to this conclusion by the advice of the City Counselor which is clearly set forth in his communication—that, as the resolution of Ald. Uthes, appropriating \$65,000 from the proceeds of the sale of Public Improvement Bonds did not state to what purposes the same should be applied, the Board of Park Commissioners have a perfect right to exercise their own judgment as regards the expenditure thereof.

Respectfully submitted,

C. K. TROMBLY,

J. E. LALLY,

FRANK N. REVES,

CHAS. P. KARRER,

FRANK J. BLEESER,

WILLIAM UTHES.

Accepted and adopted as follows:

#### FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—The Board of Public Works, to whom was referred the petition of Hodge Bros. and others for grading, paving, etc., Lincoln avenue from Alexandrine avenue to a point north of the railroad track with cedar block and cobblestone pavement, very respectfully reports that notwithstanding the fact that the petitioners represent the greater number of feet of lands directly fronting on that portion of the street proposed to be improved, it would, in the opinion of the Board, be in direct conflict with the provisions of section 305, page 185, of the charter, to pave the same. The act provide: that all sewers \* \* \* etc., shall be completed at least one year before paving the street in which the sewers have been constructed. The sewer in this street between a point 1125 feet north of

Kirby street to the Holden road was completed last winter, and although the street was tunneled and the constructing of a sewer therein would not effect the solidity of the pavement, the charter act would undoubtedly render any proceedings had toward paving said street illegal and void. The Board therefore, under these circumstances, recommend that the prayer of the petitioners for paving the same be denied.

Respectfully submitted,

W. H. LANGLEY,  
President.

Accepted and placed on file.

whom was referred the minority and majority reports of the Committee on Taxes in relation to refunding a certain paving assessment to John Beyster, respectfully report that with the City Counselor and City Attorney, we have carefully considered the matter and recommend the adoption of the majority report denying the prayer of the petitioner, for the reason that Mr. Beyster did not pay the assessment, but after his land had been sold to meet the same he purchased the city's title by redemption. The petitioner sets up no claim for damages in his petition, but simply asks for the refunding of the assessment; the subject of damages was not before us for consideration.

It is hereby ordained by the people of the city of Detroit.

Section 1. Consent, permission and authority are hereby granted to Alexander E. Viger to construct, operate and maintain a single railway track along the north side of Francis street, between Eighteenth and Seventeenth streets and across Seventeenth street, so as to connect the premises of said company with the railway premises of the Michigan Central Railroad Company.

Sec. 2. Said track shall be laid under the supervision of the Board of Public Works, shall conform to the grade of the street, and in a manner as to least interfere with ordinary travel on said street, and shall be laid along the northern side of said Francis street, from Eighteenth street to a point 20 feet westerly of the westerly line of Seventeenth street, and thence by as short a curve as may be practicable to the Michigan Central Railroad Company's right-of-way; provided that such track shall not occupy more than 10 feet in width of the north side of said Francis street.

Sec. 3. Said grantee is authorized to use said railway or track only for the purpose of such lawful business as may be conducted and carried on upon the premises by the occupants thereof. Steam power may be used to propel the cars to be used in said railway, and said cars may be run at irregular hours—the entire design of this grant being to permit transportation from the premises of said grantee.

Sec. 4. The grantee shall keep the surface of the street, as occupied by said track, in good order and repair, and shall fully indemnify and save harmless the City of Detroit from any and all claims or damages for which said city might be made or become liable to pay by reason of the construction, making or operating of said track, or the giving or allowing of the license, right and privileges hereby granted.

Sec. 5. The privileges hereby granted shall in no wise restrict or alter the right of the City of Detroit, or any of its authorized municipal boards or officers, to enter upon said street and occupy the same in completing public works or for general public purposes.

Sec. 6. No car or the engine thereto attached shall be allowed to remain or stop on said street so as to obstruct the free and ordinary use thereof, and no cars shall be permitted to remain on said track during the hours of the day or night, except while being unloaded.

Sec. 7. It is hereby reserved to the Common Council of the city of Detroit the right to make amendments to this grant and ordinance, and such other rules, orders or regulations as may from time to time be deemed by the Common Council necessary to protect the interest, safety, welfare or accom-

modation of the city and public in relation to said railway.

Sec. 8. This ordinance shall take immediate effect when written acceptance of the terms thereof shall be filed in the office of the City Clerk of the City of Detroit by said Alexander E. Viger, and shall be limited in its operation to a period of seven years from and after the time of its taking effect.

This amount was deposited by me in the city treasury, and on the 13th inst. I drew a warrant on the city contingent fund for the sum of \$2004.75 in favor of the Detroit & Howell Plank Road Co., said company having first delivered to me the proper papers transferring all their rights and franchise on Grand River avenue within the present limits of the city.

Very respectfully,  
WM. B. MORAN,  
Controller.

Accepted and placed on file.

FROM THE CITY COUNSELOR.

To the Honorable the Common Council.

Gentlemen—I have to report that in the matter of the suit on behalf of the City to restrain the Michigan Central Railroad from constructing the Belt Line through the city at grade, Judge Hosmer dissolved the preliminary injunction heretofore granted.

The charter is defective, in that it does not in express terms give to the Common Coun-

oil power to fix the grade at which tracks shall be laid within the City limits.

I do not feel sufficient confidence in the implications contained in the charter to advise an appeal to the Supreme Court, and in any event, the tracks would be laid before we could get to a hearing there.

Very truly,

JOHN W. McGRATH,  
City Counselor.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—In the case of John Flater against the city, and another which was an action for injury, occasioned by a defective sidewalk, the Supreme Court has affirmed the judgment below, which was in favor of the city.

Respectfully,

JOHN W. McGRATH,  
City Counselor.

Accepted and placed on file.

FROM THE CITY ATTORNEY.

To the Honorable the Common Council.

Gentlemen—In accordance with the terms of a resolution adopted by your honorable body on the 29th May, 1885, relative to the opening of Kirby street, assurances in writing have been obtained from all but one of the parties interested which show that the persons to whom damages have been awarded are ready to accept the same and open the street. The one exception above mentioned is unwilling to do any act voluntarily which would ratify the action of the jury empaneled in said cause, but he does not propose to contest the opening.

In view of the foregoing I recommend that the City Treasurer be authorized to pay the awards and complete the opening of the street.

Respectfully,

WM. S. SHEERAN,  
City Attorney.

Accepted, and on leave the following was offered:

By Ald. O'Regan.

J. S. SCHMITTDIEL,

relation to the other nominee, Angus McLean, your committee beg leave to say that they have heard only words of the highest commendation from our foremost physicians touching the gentleman's character and ability, but it will be remembered that the ordinance relative to the qualifications of applicants for the position of City Physician, was changed from an experience as a practitioner of five years to three years. As a physician is not supposed to practice before he receives his diploma, it appears that Dr. McLean has not had the required three years practice, as his diploma bears date March, 1886, although we are informed that his hospital experience covers more than that period. Gentlemen—Your Committee on Health, to whom was referred the remonstrance of Charles Schuknecht and others against locating the furnace for the incineration of garbage on Hunt street, respectfully report that we have given the matter very serious consideration, and have heard the arguments of the Aldermen of the Ninth and Eleventh Wards, the petitioners and Contractor Patrick, and have also consulted with the Board of Public Works. The contractor has submitted a statement of the additional expense in removing from Hunt street to the Pest House farm, and in conveying the garbage the extra distance to latter location, amounting to \$6300. He offered to make the change for \$3000. The President of the Board of Public Works gave his opinion that the contractor could not meet the additional expenses for that sum. We are satisfied that he should be allowed some compensation, and recommend the sum of \$2500, and herewith present the proper resolutions.

Respectfully submitted,

FRANK SMITH,  
JOHN MCINTYRE.

#### City.

Excavation 99 cubic yards curb, Berea and Medina 104 lineal feet, asphalt 236.89 square yards, retaining stone 124 lineal feet.

**Specifications for Trinidad Asphalt Sheet-Pavement.**

**Trinidad Asphalt Sheet-Pavement** is to be composed of a base of Hydraulic Cement Concrete, covered with a wearing surface—in a continuous sheet—of Asphaltic Cement, mixed with sharp siliceous sand and powdered carbonate of lime.

**Grading**—The street to be graded to its established grade, under the direction of the Board of Public Works, and to be excavated to a depth of eight and one-half (8½) inches for the purpose of receiving the pavement. The bottom of excavation when completed shall conform to the section or crown of the street as furnished by the City Engineer. If there be places in the street which are not firm or properly settled, caused by trenching or connections of sewers, gas or water pipes, the earth must be taken out and the space refilled and pounded to make it solid. Before placing the pavement thereon the road-bed in each block shall be well rolled with a roller weighing not less than 2,400 pounds. The surplus earth, if any, must be disposed of by the contractor, the said Board reserving the right to direct the contractor to remove any earth it may require for the purpose of filling up any low lots, alleys and sidewalks to the proper grade within the assessment district.

**Curbstone**—Curbstone shall be of the best

Berea or Medina sandstone, not less than thirty, 30, inches in length, of a depth of eighteen, 18, inches, and four, 4, inches in thickness, and show a fair face above the paving. It must be set in a bed of bank sand and gravel, and incline one-half,  $\frac{1}{2}$ , inch from the street, and the top dressed to the bevel of the sidewalk. The joints dressed to the depth of fourteen, 14, inches, and the back filling to be four, 4, inches of bank sand and gravel, and firmly pounded. At all corners and intersections of streets the curb shall be set with a circle of four, 4, feet radius, or otherwise, as said board may direct. The circle stone to be eighteen, 18, inches in depth, and faced on the ends not less than fourteen, 14, inches. In case the curbstones shall come above the natural surface of the ground, they must be backed with earth finish with the top and at least three, 3, feet in width.

The setting of the curbstones must be done by experienced workmen, and will not be accepted unless they are set to the true line and grade.

**Drainage.**—The trench made for setting the curbstones shall be dug twenty-four, 24, inches deep, and have laid in the bottom a continuous line of four-inch soft tile sloped at a uniform grade toward and connected with the nearest sewer inlet. These tile shall be covered with the filling of gravel and sand in which the curbstones are set.

**The Concrete Base.**—Upon the foundation as above will be laid a bed of hydraulic cement concrete six inches in thickness, to be made as follows: One measure of cement equal to the best quality of freshly burned Louisville cement, and two of clean, sharp sand, will be thoroughly mixed dry and then made into a mortar with the least possible amount of water; broken stone or brick, thoroughly cleaned from dust and dirt, drenched with water, but containing no loose water in the heap, will then be incorporated immediately with the mortar in such quantities as will give a surplus of mortar when rammed. This proportion, when ascertained, will be regulated by measure. Each batch of concrete will be thoroughly mixed. It will then be spread, and at once thoroughly compacted by ramming until free mortar appears upon the surface. The whole operation of mixing and laying each batch will be performed as expeditiously as possible. No gravel will be used in the concrete, but only angular fragments of stone or brick, having rough faces obtained by fracture, and measuring about two and a half inches in their largest dimensions.

**Wearing Surface.**—Upon this base will be laid the wearing surface or pavement proper, the binding material of which is a cement, prepared with pure Trinidad Asphaltum, unmixed with any products of coal tar. The wearing surface will be composed of

Asphalt cement.....	from 12 to 16 per cent
Sand.....	from 78 to 87 "
Pulverized carbonate	
of lime.....	from 15 to 17 "
	100 100

These proportions will be varied according to circumstances, as may be necessary to secure the best practical result.

The carbonate of lime may be reduced or omitted entirely when suitable sand can be obtained.

In order to make the pavement uniform, the proportion of Asphaltic cement must be varied according to the quality and character of the sand.

The sand and Asphaltic cement are to be heated separately to about 300 degrees Fah. The pulverized carbonate of lime, while cold, is to be mixed with the hot sand in the required proportions, and is then mixed with the Asphaltic cement at the required temperature and in the proper proportion, in an apparatus suited to effect a perfect mixture.

The pavement mixture thus prepared will be laid on the concrete base in two coats. The first, called the cushion coat, will contain from two to four per centum more Asphaltic cement than is given above; it will be laid to such depth as will give a thickness of half an inch after being consolidated by a roller. The second, called the surface coat, prepared as above specified, will be laid on the cushion coat, it will be brought to the ground in carts, at a temperature of about 250 degrees Fah.; it will be carefully spread by means of iron rakes, in such manner as to give a uniform and regular grade, and to such depth that, after having received its ultimate compression, it will have a thickness of two inches. The surface will then be compressed by a hand roller, after which a small amount of hydraulic cement will be swept over it, and it will be thoroughly compressed by a steam roller, the rolling being continued as long as it makes an impression on the surface. No teaming will be permitted over the pavement until the street is opened for travel by the contractor or Board of Public Works.

**Connections with Streets and Alleys.**—The Asphalt pavement shall, unless otherwise ordered by the Board of Public Works, be extended to all intersections with streets and alleys to the curb line.

**Marginal Finish.**—There shall be set at the edge of the Asphalt pavement where it crosses any intersecting street or alley a line of retaining stone. These stone shall be four (4) inches thick, and not less than eighteen (18) inches deep, and conform to the surface of the pavement with their exposed edge.

When street or other railroad tracks run through or across streets to be paved with Asphalt, a marginal line of Medina stone paving blocks, placed as alternate headers and stretchers, shall be set, before the Asphalt is laid, against the line of rails whenever the Asphalt would otherwise be in contact with them.

Bidders are required to file a satisfactory bond or certified bank check with the Board of Public Works before the proposals are opened, conditioned that should they be found to be the lowest bidders, they will, within ten days after being awarded the contract by the Common Council, enter into a contract, with good and sufficient sureties, to perform the work.

The right to reject any or all proposals is expressly reserved.

WM. H. LANGLEY,  
1838a President Board of Public Works.

## COMMUNICATIONS FROM CITY OFFICERS.

FROM THE MAYOR.

To the Honorable the Common Council.

Gentlemen—I herewith transmit to you the written resignation of John Shanahan as Constable of the Sixth ward.

Respectfully,

JOHN FRIDGEON, JR.,

Mayor.

The communication was accepted and the resignation adopted as follows:

Yeas—Ald. Amos, Bleser, Fairbairn, Finney, Gilmore, Griggs, Guiney, Hartness, Hollhan, Jacob, Karrer, Kellogg, Lally, McGuire, McIntyre, Meier, O'Regan, Peterkin, Reichenbach, Reschke, Reeves, Smith, Tierney, Trombly, Uthes and the President—27.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—I herewith return to your honorable body without my signature or approval the resolution adopted at your last

session directing the City Attorney to commence proceedings under the general state law for opening the Boulevard across the railroad tracks on Russell street.

The Board of Boulevard Commissioners is now engaged in an effort to perfect a plan for securing the entire right of way on the established line of the Boulevard, and their efforts include the proposition for opening the same across the railroad track at the point named in the resolution.

I am advised that if the proceedings for the opening are continued and the said opening should be ordered that any money which might be required to pay damages will have to be taken out of the street opening fund. Aside from the question of any legal right the Council may have to do so, I believe it would be bad policy for the city to commence drawing upon this fund for Boulevard purposes. The street opening fund is provided expressly for the opening of streets that are a necessity for public use, there being a separate fund provided for Boulevard purposes, and further, at the time of fixing the amount of the street opening fund there was no calculation or provision made for expending any part of it upon the Boulevard.

Respectfully,

JOHN PRIDGEON, Jr.,  
Mayor.

Accepted.

Ald. Trombly moved to reconsider the vote by which the resolution was adopted.

Carried as follows:

Yeas—Ald. Amos, Bleaser, Fairbairn, Finney, Gilmore, Griggs, Guiney, Hartness, Hollman, Jacob, Karrer, Kellogg, Lally, Lander, McGuire, McIntyre, Meler, O'Regan, Peterkin, Reichenbach, Reschke, Reeves, Smith, Tierney, Trombly, Uthes and the President—27.

Nays—None.

On motion of Ald. Jacob the resolution was laid on the table.

#### FROM THE CITY COUNSELOR.

To the Honorable the Common Council.

Gentlemen—I have to report that contrary to expectation the Supreme Court reversed the decree of the Circuit Court in the Market case, and ordered that a decree be entered enjoining the city from interrupting the use of the Market property, or any part of it, or any of the buildings heretofore used for market purposes, and directing the continuance of the Market as such, and the collection and application of the income for the payment of the bonds.

The attention of the court was distinctly called to the fact that the act did not contemplate the application of the rents, fees and profits derived from the vegetable market to the payment of the bonds, but related solely to the erection of the building occupying the westerly portion of the Market Place, but the decision of the court embraces, you will observe, the preservation for market purposes of the entire Market Place.

We had all supposed that the power to erect and maintain a market was one, the exercise of which was discretionary on the part of the city, but this decision would seem to make it the duty of the city, whether or not the public desired it, to maintain a market.

Respectfully,

JOHN W. MCGRATH,  
City Counselor.

Accepted and placed on file.

To the Honorable the Common Council.

Gentlemen—The undersigned respectfully reports that pursuant to law he did, on the 1st day of May, A. D. 1888, advertise a notice in the daily newspaper published by the printer of the city once a week, for four successive weeks, a list of lands, tenements, hereditaments or premises, and the names, if known, of the owners or occupants or parties in interest in the same, and the amount of the unpaid taxes for the years 1887 and 1888 due thereon, and notifying such parties in interest that if default be made in making any of such payments of the amount due, that such real estate would be sold, as provided by law, at public auction, at the office of the Receiver of Taxes, in the City Hall, of the City of Detroit and State of Michigan, on the first day of June, A. #### FROM THE BUILDING INSPECTORS.

To the Honorable the Common Council.

Gentlemen—In response to the resolution of Ald. Hartness, adopted June 19, instructing this board to report to your honorable body what action, if any, had been taken to abate the smoke nuisance in the Pullman Car Works, respectfully report that in the early part of May last we served a notice on Mr. Spaulding, the manager, to abate the smoke nuisance in these works, giving our usual 30 days' time. One of the inspectors called at the works on the 15th inst. and found that they had put in a device of their own that they believe with careful stoking will do away with the nuisance. Called again on the 23d inst. and found the nuisance from the boiler stack abated. But the smoke from the forging furnace, and the open forges, of which there are about forty (emitting more smoke than from the boiler stack) remain the same. Mr. Spaulding will try an experiment on the forging furnace, but we know of no device to prevent or consume smoke from the open forges only care. We are satisfied that Mr. Spaulding will do all that can be done to abate the nuisance. Our regular monthly report to your honorable body will give you a detailed account of the work done this month to abate the smoke nuisance.

Respectfully submitted,

P. H. MCWILLIAMS,

E. K. HARRIS,

E. W. SIMPSON, Secy.

Accepted and placed on file.

### Proposals for Grading, Paving the Alleys in the Block Bounded by Joy and Pitcher Streets and Second and Third Avenues.

Sealed proposals will be received at this office until Monday, June 11, 1888, at ten o'clock A. M., for furnishing all the labor and material and grading, paving, etc., in the alleys in the block bounded by Joy and Pitcher streets and Second and Third avenues, 30 feet wide, with cobblestone pavement, according to the specifications adopted by the Common Council, the estimates of the City Engineer, now on file in this office, and the charter and ordinances of the city of Detroit.

#### ESTIMATES FOR ASSESSMENT PURPOSES.

Excavation, 678 cubic yards.

Paving, stone, 1755.55 square yards.

#### CUTTING.

Excavation, 117 cubic yards.

Paving, stone, 252.22 square yards.

Crosswalks, Medina stone, 370 square feet.

#### SPECIFICATIONS.

##### GRADING.

*First*—The alley to be brought to its established grade under the direction of the Board of Public Works.

Where cutting occurs the alley must be excavated to such a depth below the true grade as the board may deem necessary for the purpose of receiving ballast for the roadway.

If the contractor shall excavate deeper than the grade specified by the City Engineer, then the back filling shall be of sand and gravel at the expense of the contractor. In case of filling, the material shall be of sand, clay, earth or gravel, free from any animal or vegetable matter or any perishable material.

The filling or excavation, when brought to the proper depth below the true grade shall be smoothly graded and shaped to conform to the crown of the pavement, so that the ballast, gravel and sand will be of uniform thickness. The surplus earth must be disposed of by the contractor, the Board reserving the right to direct the contractor to remove to any part of the city not exceeding one mile such earth as may be required for the purpose of filling up any low lots or streets, parks, alleys, sidewalks or other city property, to the proper grade under direction of the Board. All stone, timber, or lumber upon the alley will belong to the city, and if required by the Board must be taken up by the contractor and placed at such points on said alley as the Board may direct.

##### BALLASTING.

*Second*—A bed of ballasting sand and gravel, not less than six inches in depth, shall be placed upon the road bed previously prepared to receive it, and shall be evenly spread and rounded to the shape of the alley, and shall be well rolled at least one hundred feet at a time before paved, with a roller weighing at least five hundred (500) pounds, eighteen (18) inches broad, and three (3) feet in diameter.

Wherever sand and gravel is specified it must be of the best quality of bank sand and gravel, equal in all respects to specimens to be seen at the office of the Board of Public Works.

##### PAVING STONES.

*Third*—All the stones to be set in a bed of sand and gravel, sufficient in depth to measure fourteen (14) inches from top of stone, when firmly pounded and set to top of excavation. The cobble stone shall not be more than eight (8) inches, nor less than four (4) inches in diameter, and shall be laid with their greatest surface or face upwards, and so as to break joints with the adjoining stone. The largest stones shall be laid in the center, and the smallest next to the lot line.

##### FOUNDING.

*Fourth*—The pavement, when laid, shall be thoroughly rammed and pounded with a man weighing from seventy-five to eighty-five pounds, and the unevenness of surface of the paving shall not be over one inch before it is pounded, and the whole surface of pavement, when finished, shall be one inch above grade. The work, before being accepted, must conform to the true grade and cross-section, as directed by the Board of Public Works, and in no case to be altered unless by the written consent of said Board.

##### TOP DRESSING.

*Fifth*—All alleys paved with stone shall not be covered with sand or gravel until the same is inspected by the Board of Public Works, and when inspected shall be covered with three-fourths (¾) of an inch of sand and gravel. And in no case shall the paving be covered with sand on the day it is laid.

##### CROSSWALKS.

*Sixth*—Said crosswalks to be of Medina stone, not less than five (5) inches in thickness, nor less than eighteen (18) inches in width, nor less than two and one-half (2½) feet in length, laid in courses. The edges of said stone to be cut square and at right angles. The said sand and gravel in which said crosswalks are laid, to be thoroughly rammed before the stones are laid upon it. The center of crosswalk shall be four (4) inches higher than the grade of the street.

Bidders are required to file a satisfactory bond with the Board of Public Works before the proposals are opened, conditioned that should they be found to be the lowest bidders, they will, within ten days after being awarded the contract by the Common Council, enter into a contract, with good and sufficient sureties, to perform the work.

The right to reject any or all proposals is expressly reserved.

WM. H. LANGLEY,

—9 President Board of Public Works.

JOHN PRIDGEON, JR.,

Mayor.

Laid on the table under the rule.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—I return to your honorable body, without my approval or signature, a resolution adopted June 23, authorizing the Controller to draw his warrant for \$2,000 in favor of Alex. L. Patrick, "for all claims against the city by reason of having to locate the garbage furnace on the pest house farm."

The resolutions also orders the Controller to lease to said contractor, with provision for renewal, as much of said farm as may be considered necessary to operate said garbage furnace, no consideration being mentioned as rental for same.

After careful consideration I question alike the necessity and propriety of the proposed expenditure and the surrender to private interests without compensation of the city's property.

The contractor is bound to provide a suitable place for his furnace. It is his care and not that of the city to guard against any location in which his furnace will prove to be a nuisance. Should he disregard that fact

and establish a nuisance the law provides amply for the protection of the people against the same, and the contractor, at his own expense, would be compelled to find a location where he could carry on his business.

Having accepted a contract to do this work, well understanding that he must himself provide a location as well as proper means for carrying out the contract provisions, I can see no good reason why the city should provide him with a site free of cost, or should compensate him for any mistake he may have made in the selection of a site.

The above reasons, I believe, will make it manifest to you that the expenditure proposed is unwarranted and would establish a precedent dangerous to public interest.

Yours respectfully,

JOHN PRIDGEON, JR.,

Mayor.

Ald. Trombly moved the communication be received and the resolution be reconsidered, which prevailed as follows:

Yeas—Ald. Amos, Bleser, Burt, Fairbairn, Finney, Gilmore, Griggs, Guiney, Hartness, Hayes, Hollhan, Karrer, Kellogg, McGuire, McIntyre, Martz, O'Regan, Peterkin, Pfeifer, Reichenbach, Reschke, Reves, Smith, Tierney, Trombly, Uthes and the President—27.  
Nays—None.

Ald. Burt moved to lay the whole matter on the table, which prevailed as follows:

Yeas—Ald. Amos, Burt, Fairbairn, Finney, Gilmore, Hartness, Hollhan, Karrer, Kellogg, McGuire, McIntyre, Peterkin, Pfeifer, Reichenbach, Reschke, Reves, and Smith—17.  
Nays—Ald. Bleser, Griggs, Guiney, Hayes, Martz, O'Regan, Tierney, Trombly, Uthes, and the President—10.

FROM THE CONTROLLER.

To the Honorable the Common Council.

Gentlemen—The Supreme Court of the State of Michigan, having by its recent decision ordered that the Central Public Market building and market grounds be retained and kept for market purposes until such time as the bonds issued for the erection of the building be paid, it is necessary that the city should take steps to provide for the payment of the bonds in the event of the destruction of the building by fire or otherwise. As the rents of the market building are set aside for such payment the city would be compelled to ask the Legislature to give it power to pay the bonds in case the building were destroyed.

To prevent such action and to be prepared for such contingency I respectfully recommend to your honorable body the advisability of insuring the said market building in good reliable companies for the amount of the outstanding bonds and until such bonds shall have been paid.

Very respectfully,

WM. B. MORAN,

Controller.

Accepted and the following was offered:  
By Ald. Guiney.

Resolved, That the Controller be, and he is hereby authorized and directed to insure the Central Market building on the best possible terms obtainable, and for a sum equal in amount to the bonds now outstanding.

Referred to the Committee on Markets.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—I respectfully ask authority to employ an additional clerk in my office during the month of July and part of August. The press of business in this office during this period makes this request necessary.

Very respectfully,

WM. B. MORAN,

Controller.

Accepted and the following was offered:  
By Ald. Trombly.

Resolved That the Controller be and he is

hereby authorized to employ an extra clerk in his office, during the month of July and part of August at a salary not to exceed \$3.80 per day.

Adopted as follows:

Yeas—Ald. Amos, Bleser, Burt, Fairbairn, Finney, Gilmore, Griggs, Guiney, Hartness, Hayes, Hollman, Karrer, Kellogg, McGuffee, McIntyre, Martz, O'Regan, Peterkin, Pfeifer, Reichenbach, Reschke, Reyes, Smith, Tierney, Trombly, Uthes and the President—27.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Serious complaints have come to me from time to time regarding the inequalities and other defects which have arisen since contracts were entered into with the City's fiscal agents, viz.: The First National and the Commercial National banks. To overcome the difficulties which have arisen I think the deposit of the City's money should be made on a new basis, say six-tenths in the First National and four-tenths in the Commercial National, regardless of funds. Should such an arrangement be acceptable to the aforesaid banks I should unhesitatingly recommend its adoption.

Very respectfully,

WM. B. MORAN,

Controller.

Accepted and referred to the Committee on Ways and Means.

FROM THE SAME.

Respectfully submitted,  
WM. B. MORAN,  
Controller.

Accepted and referred to the Committee on Claims and Accounts.

FROM THE CITY COUNSELOR AND CITY ATTORNEY.

To the Honorable the Common Council.

GENTLEMEN—The abstract of title in the Clinton park matter has been completed and delivered to us since the last session of your body, and in reply to your request for information regarding the title, we beg leave to say: That in June, 1827, Antoine Beaubien, in consideration of the sum of \$589.25, conveyed this property to the city of Detroit; that the grant in the deed was of an absolute estate in fee; that the habendum clause in said deed was as follows: "To have and to hold the said premises unto the said parties of the second part, and to their successors and assigns, to be used and occupied as a burial ground, and place of interment for the dead, to the said parties of the second part, their successors and assigns, to the use and behoof of the said city of Detroit forever."

We are of the opinion that the words last quoted, do not lessen the estate conveyed, or create a condition restricting the use of the premises to burial purposes, and that the City had under this deed, a perfect title in fee as against Antoine Beaubien, his heirs and assigns.

We are fortified in this conclusion by opinions heretofore given to the Common Council and Board of Education in the same matter and to the same effect, by such eminent jurists as William Gray, Theodore Romeyn and G. V. N. Lothrop.

It is proper to state, however, that in 1870, a suit in ejectment was commenced against the city by Elizabeth Van Dyke, claiming under Antoine Beaubien, to recover possession of this property. The City appeared and put in its plea. Beyond this, nothing has been done in this case, and it cannot now be disposed of until after September. Nothing has occurred to call our attention to the matter until this reference.

We have seen the counsel for plaintiff, who claim an intention to prosecute the cause.

But another question arises much more difficult of solution than that already referred to.

This property was used and occupied as a burial ground until some time in the sixties. It nowhere appears that the city of Detroit conveyed it or any portion of it away before that time, for that purpose, but it is claimed that for over twenty years prior to 1828, the Roman Catholic church had occupied a part, if not all of this tract for burial purposes, and had exercised acts of ownership over it. Unquestionably the church acquired whatever rights they had from the city, but we have been unable to find the instrument, resolution or agreement granting their rights.

We do find, however, that conveyances

were made by Ste. Anne's church to Bishop Lefevre in July, 1850.

In 1827 the city had determined, so far as it was concerned, to abandon the use of this property for burial purposes, and a cession of the property to the Board of Education for educational purposes was contemplated.

The Board of Education sought legal advice as to the city's title, and Theodore Romeyn and William Gray advised that the conveyance from Antoine Beaubien to the city was of an absolute fee, but that the facts in the case showed a possession of this tract by the Catholic church for so long a time under a claim of title as was sufficient to give to the church a title by adverse possession.

George V. N. Lothrop, who was also consulted, concurred with Messrs. Romeyn and Gray as to the legal construction and effect of the deed from Antoine Beaubien to the city, but he was of the opinion that the possession by the church was by leave or license from the city for burial purposes, and was not under such a claim of ownership adverse to the city as to create a title in the church. Mr. Lothrop advised, however, that the city could not disregard the burial rights acquired and could not exercise unrestrained authority without procuring a release of those rights.

This was the situation when, in 1868, the city purchased for the use of the Catholic church sufficient lot room in Mount Elliott cemetery for the reinterment of the bodies occupying that portion of the cemetery which was under control of the church, and in December, 1868, the city, under an arrangement with Bishop Lefevre and the trustees of St. Anne's church, and in conjunction with the bishop and said trustees, dedicated to the public for the sole purpose of a public park the property referred to.

Three separate instruments of dedication were executed and recorded, to wit:

One executed by the city, declaring that the instrument was executed upon condition that "the premises hereby granted and dedicated shall be used for and as a public park, to be known and called Clinton park, and for no other use or purpose whatever," and that Bishop Lefevre and the trustees of St. Anne's church should execute a like instrument of dedication.

Another instrument executed by Bishop Lefevre, granting and dedicating "to the public use and enjoyment for the sole purposes specified all his right and title and interest in the property upon condition that the said premises hereby granted and dedicated shall be used for and as a public park, to be known and called Clinton park, and for no other use or purpose whatever," and

That the City of Detroit shall make a like grant and dedication to the public.

A third executed by the trustees of St. Anne's church making a like grant and dedication upon like conditions and for the same uses.

In accordance with said grants, the property has been set aside and maintained as a public park.

The situation may be summed up as follows: The city, having the title to this property, made a grant or license to the Catholic church for burial purposes. At the time of this grant it must be presumed that neither the city nor the church contemplated an abandonment of such burial uses, or a surrender of the privileges granted the church. In 1868, after the church had been in possession for 20 years, the city contemplated the discontinuance of this use, and the cession to the Board of Education of the property for educational purposes. The church owned and now owns adjacent property, and was in the enjoyment of the burial privileges in the property in question. It is immaterial whether the church had acquired a title by adverse occupation or had, under a license

from the city, acquired the rights to a perpetual use for burial purposes.

Two eminent lawyers gave it as their opinion that the church had acquired a valid title by adverse occupation.

Another lawyer, equally eminent, advised that the occupation by the church was not such an adverse occupation as would create a title, but that such occupation was permissive on the part of the city, yet the city could not exercise unrestrained authority over the property without procuring a release from the church.

The church granted no such release, but the city and the church compromised their respective claims by a joint dedication of the property to the public for a public park, and for no other use or purpose whatever. The condition of the dedication is restrictive. The dedication is not therefore merely a dedication by the city of its own property for park purposes; it is more, it is in the nature of an agreement between contending parties that a piece of land, the title which is in dispute, shall be devoted to a particular and specific use.

The question, thus presented, is not free from difficulty, but we are of opinion that in the absence of a release from the church the city cannot convey this property to the use now contemplated without proceedings to vacate or condemn.

We suggest, however, that an effort be made to obtain from the Roman Catholic authorities a release of any interest which they may have in the maintenance of Clinton Park.

City Counselor.

Gentlemen—The Board of Public Works, to whom was referred the petition of Thomas Beggs and others, asking for the paving of Elizabeth street with cedar blocks and cobblestone pavement, respectfully report that one of the petitioners for this improvement represents that her name was signed without authority, and in another instance an error occurred in the feet represented. **FROM THE SAME.**

To the Honorable the Common Council.

Gentlemen—Before proceeding further in the matter of paving Baltimore avenue west of Woodward avenue the Board respectfully informs your honorable body that the petition therefor, after it had been signed by parties interested was, without the knowledge or consent of a portion of the petitioners changed from Crawford street to Third avenue, thereby leaving a legal technicality which objectors to paying the assessment for paving the same might avail themselves of.

In recommending the pavement the presumption was that the petition represented the wishes of the land owners between Woodward avenue and Third street, but on investigating the same it was found that the petition purported to be to extend the same to Crawford street, but failing to obtain the required number of feet to reach that point the petition was mutilated and Third street substituted for Crawford street. Under these circumstances the Board of Public Works recommend that all proceedings had in the matter of paving Baltimore avenue between Woodward and Third avenue be rescinded.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council.

Gentlemen—In accordance with the request of your honorable body to report by what authority an alleged lateral sewer was lately commenced in the alley south of Fort street, between Campbell and Junction avenues; and if the party who dug up that alley, had no authority or contract for so doing, why they permitted such work to be done; and the Board of Public Works are hereby directed not to consider any bids from said parties in the future, being the firm of Koenig & Frings, contractors, respectively report that on the 5th day of June the Common Council, on the recommendation of the Committee on Sewers, ordered the Board of Public Works to contract with the parties named for constructing said sewer, which order was complied with, and during the pendency of the action of the Common Council on the confirmation of the contract the contractor of his own volition and responsibility commenced work on said sewer.

As to why the contractor was permitted to proceed with the work by the Board the Board respectfully report that the Board have no jurisdiction in the premises, and would render the members thereof amenable to law should they undertake by force to prevent said Koenig pursuing his vocation in an alley.

As regards considering the bids of the parties named, the Board know of no clause in the charter prohibiting them from enjoying equal rights with others, provided they furnish satisfactory bonds for the performance of the work.

To the Honorable the Common Council.

Gentleman—As directed by your honorable body the Board of Public Works examined Grand River avenue between Eighteenth street and the railroad crossing with a view of determining the necessity for proper drainage of said avenue, and respectfully report that the Board is of the opinion, inasmuch as there is no sewer in said avenue between the points mentioned, that a necessity does exist for the construction of a receiving basin sewer in order to prevent an overflow of the avenue at that point during rain storms, and also as a receiver for lateral sewers that may be constructed in that vicinity. The Board therefore recommend that a receiving basin sewer be ordered constructed in Grand River avenue; between Eighteenth street and the railroad crossing, and that the Board of Public Works be authorized to advertise five days for proposals for constructing the same.

It is estimated that the sewer will cost about \$1 per lineal foot.

#### FROM THE SAME.

To the Honorable the Common Council.  
Gentlemen—Your Committee on Claims and Accounts respectfully beg leave to report to your honorable body that the following vouchers have been withheld by us for the reason that the material furnished was for account of the General Road Fund for 1887, and the Board of Public Works have no authority to order material when there is no money in the treasury to pay for the same; nor have they any right to order any work done or material furnished in one fiscal year, and ask to have the same paid for out of the estimates for the following fiscal year. If the language of the charter means anything, it strictly forbids any such procedure, and in our judgment it is time a halt was called. The balance to the credit of the General Road Fund, as reported by the City Treasurer, June 30, 1888, is \$1,488.37, while the amount of the vouchers is \$10,159.08, which is \$8,670.71 in excess of the appropriation for 1887. As a committee we cannot recommend their payment, and herewith present the same to your honorable body, for such disposition as you may see fit to make of them.

Respectfully submitted,

JAMES HOLIHAN,  
SEYMOUR FINNEY,

**FROM THE SAME.**

To the Honorable the Common Council.

Gentlemen—The Board of Public Works to whom was referred the petition

Of Hodges Bros. and others, asking for the paving of Lincoln avenue from the north end of the present pavement at Alexandrine avenue to Stanley street.

Respectfully report that at a session of the Common Council held July 3, 1888, Lincoln avenue between Alexandrine and Forest avenues was ordered paved, and to comply with the request of the petitioners it would necessitate the repealing of the Council's former action. As the appropriation to defray the expenses of paving intersections is about exhausted, it would interfere with other improvements contemplated by the Board and provided for in the appropriations if this pavement was extended. The Board therefore recommend that the prayer of the petitioners be denied.

Respectfully submitted,

W. H. LANGLEY,

President.

Accepted and referred to the Committee on Streets.

**FROM THE SAME.**

To the Honorable the Common Council.

Gentlemen—At the last session of the Common Council the following resolution was adopted:

By Ald. Lauder.

Resolved, That the Board of Public Works be and they are hereby requested to inform the Common Council why street signs have not been put up at all street intersections, and they are hereby directed to have the same done at once wherever needed.

In compliance with the request contained in the foregoing resolution the Board respectfully inform your honorable body that employees of the Board have been for the past ten days placing signs at street intersections, and are rapidly progressing with the work.

Respectfully submitted,

W. H. LANGLEY,

President.

Accepted and placed on file.

**FROM THE SAME.**

To the Honorable the Common Council.

Gentlemen—The City Treasurer is desirous, in order to facilitate business in his office, to make certain changes in his private office, to-wit: To place therein a counter and guard the same with wire screens, etc. To make this improvement it is estimated that it will cost about \$125. The Board respectfully recommend that authority be given to have the improvement made.

Respectfully submitted,

W. H. LANGLEY,

President.

By Ald. Guiney.

Resolved, That the Board of Public Works be and are hereby directed to cause the improvement recommended by said Board in the private office of the City Treasurer to be made.

Accepted and referred to the Committee on Public Buildings.

**FROM THE SAME.**

To the Honorable the Common Council.

Gentlemen—On the 29th day of May, 1888 the Board of Public Works transmitted to the Common Council proposals for furnishing the city with sand for repairs to defective pavements during the fiscal year ending June 30, 1889. The proposals were referred to the Committee on Streets, where the proposals now remain. It is important that some action should be taken by your honorable body in this matter, for unless the Board is furnished with material in making these repairs the work must necessarily be discontinued. It is therefore respectfully recommended that your honorable body instruct your Committee on Streets to report back the proposals at as early a day as convenient.

Respectfully submitted,

W. H. LANGLEY,

President.

Accepted and referred to the Committee on Streets.

**FROM THE SAME.**

To the Honorable the Common Council.

Gentlemen—The Board of Public Works, to whom was referred the resolution directing the Board to examine and report to this body the estimated cost of paving with cobblestone sufficient of the public space in the block bounded by Russell, High, Kloppele and Winder streets, to be used for the accommodation of farmers, gardeners, hucksters and others as a public market, and to make such recommendations relative thereto as they may deem expedient, respectfully report that the Board examined the premises referred to, and estimated that it will cost to pave and put the grounds in

proper condition for the purpose intended about \$23,854.05.

The following is a statement showing the expenses in detail:

Excavation.....	7,712	40	\$ 3,084 80
Paving.....	14,881	\$1 25	18,613 75
Crosswalks.....	4,722	45	2,156 40

Total.....\$23,854 05

To pave the same as proposed by the Committee (25 feet) it is estimated that it will cost about \$5,000.

In the matter of providing the amount necessary to defray the expense of paving, etc., these grounds, the Board know of no appropriation made for the purpose, and it will devolve upon your honorable body to provide the same before proceeding with the work.

Respectfully submitted,

W. H. LANGLEY,  
President.

Accepted and referred to the Committee on Markets.

#### FROM THE SAME.

To the Honorable the Common Council.  
Gentlemen—The Board of Public Works to whom was referred the following resolution:

#### FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Streets, to whom was referred the petition of Lake Crossley for permission to locate a steam boiler in a vault in the alley at the south-easterly corner of the Newberry & McMillan building, respectfully report that they have examined the same and find that the intention is to build a vault projecting from said building into the alley on the east and south side of said building; that the vault will not extend to the center of the alley and will only interfere with the ordinary uses of the alley while the same is being constructed.

Your committee therefore recommend that the permission be given provided the work is done to the satisfaction of the Board

of Public Works and they do not interfere with any lateral sewer or other public work.

Respectfully,

JOHN E. LALLY,  
FRANK J. BLESER.

By Ald. Lally.

Resolved, That permission is hereby given to Luke Crossley to construct a brick vault in the alleys at the southeasterly corner of the Newberry & McMillan building, provided the same does not extend beyond the center of the alleys, and does not change nor alter the grade of said alleys, nor interfere with the sewers or other public works therein, and the work is done under the supervision of and to the satisfaction of the Board of Public Works.

#### TAXES.

To the Honorable the Common Council.

Gentlemen—Your Committee on Taxes, to whom was referred the petition of Amos Chaffee for the correction of certain alleged erroneous assessments, respectfully report that in the matter of the assessment of certain land and three buildings thereon on Willis avenue, we beg leave to report the same back to your honorable body with the recommendation that that portion of the petition be referred to the Committee on Street Openings and the City Attorney. In relation to the assessment of \$30,000 on his stores on West Larned street, which were burned last March, without insurance, we recommend that as the property was destroyed and as it will cost about what the stores were assessed at to replace them, that the amount of the taxes on the sum of \$10,000 be refunded him, and herewith present the proper resolution.

Respectfully submitted,  
SEYMOUR FINNEY.  
JAMES TIERNEY.

Accepted and on leave the following was offered:

By Ald. Finney.

Resolved, That the city controller be and he is hereby authorized and directed to draw his warrant on the proper fund, in favor of Amos Chaffee, for an amount equal to the taxes on an assessment of \$10,000 for the year 1888, upon presentation and delivery of the receipt showing that he has paid the taxes on two stores on West Larned street assessed at \$10,000 each.

Ald. Jacob moved to indefinitely postpone the whole matter.

Carried.

#### FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Taxes, to whom was referred the petition of Mrs. F. E. Traver for the correction of an erroneous assessment, respectfully report that she petitioner testified under oath that she owns \$10,000, and that the mortgage in Branch county for \$5,000 is a part of the same. At the time she approved of the assessment on \$10,000 she did not own the mortgage for \$5,000; that subsequently her attorney, W. A. Moore, loaned \$5,000 of the \$10,000 for her to parties in Branch county; that she never received a notice from the assessors in relation to the mortgage or she would have appeared before them, a change of residence being the probable reason why the notice did not reach her; we are satisfied that she is assessed for \$5,000 more than she owns, and therefore recommend that her prayer be granted.

Respectfully submitted,  
SEYMOUR FINNEY,  
JAMES TIERNEY.

Accepted and on leave the following was offered:

By Ald. Finney.

Resolved, That the City Controller be and is hereby authorized and directed to draw his warrant on the proper fund in favor of Mrs. F. E. Traver for \$65.48, upon presentation and delivery of the receipt showing that she has paid the taxes upon an assessment of \$15,000 for the year 1888.

Laid on the table for one week.

#### CHARTER AND LEGISLATION.

To the Honorable the Common Council.

Gentlemen—Your Committee on Charter and Legislation, having before us the subject of a revision of the city charter, respectfully report that we have partially considered the matter of such revision at several meetings held by us; that we have proceeded far enough to conclude that the method of remodeling it chapter by chapter is neither the best nor the most expeditious. In our judgment, after mature deliberation of the subject, it would be better to have the legal advisers of the city submit to your committee, and through them to the Common Council, a revision of the charter as a whole, so that it may be considered by the Council in a complete form, and if desired so that other legal opinions may be obtained upon it.

We recommend, therefore, that the legal advisers of the city be authorized to prepare a complete revision of the charter as soon as possible and submit the same to your committee for consideration; the same to be transmitted to the Common Council with such recommendations as may seem proper.

## FROM THE CITY TREASURER.

To the Honorable the Common Council of the City of Detroit.

Gentlemen—I beg to call the attention of your honorable body to the pressing need for more clerical help in this office, and request authority to engage two clerks to take the place of those cut off at the close of my predecessor's term of office.

About \$40,000 of back taxes stand uncollected on the books, and delinquents should have notice and also personal solicitation, which is impossible with the present force. The new back tax books designed to facilitate collections and render certain the correction and avoidance of errors in tax abstracts in the "ribbon wards" need also to be written up, as only the First, Fifth and Seventh ward books are completed, nothing having been done with the other books. I am satisfied that upon investigation you will find their time can be profitably employed in the interests of the city, and I would therefore

respectfully suggest prompt action in the matter.

Very respectfully,

THOMAS P. TUIE,

City Treasurer.

Accepted and the request concurred as follows.

Yeas—Alds. Amos, Bleser, Burt, Fairbairn, Finney, Gilmore, Griggs, Guiney, Hartness, Hayes, Hollman, Jacob, Karrer, Kellogg, Lally, Lander, McIntyre, Martz, Meier, O'Began, Peterkin, Pfeiffer, Reichenbach, Reschke, Reves, Smith, Tierney, Trombly, Uthes and the President—30.  
Nays—None.

At this time the construction of a crock drain at the point mentioned is deemed unnecessary, but should the street be ordered paved, then receiving basins will be placed at such points as will readily dispose of surface water.

Respectfully,

D. C. KELLOGG,  
MIKE MCGUIRE,  
ERNEST L. RESCHKE.

D. 1846, by Lewis Cass, and the public space bounded by Russell, High and Winder streets and the alley east of Russell street, and the public space on the northwesterly corner of Trumbull and Michigan avenues (heretofore known as the Western Hay Market) are hereby declared to be public markets. The said squares or spaces shall be known as the Central Market, the Cass Market and the Eastern and Western Markets, respectively.

**SEC. 2.** The City Controller and the Committee on Markets shall recommend, and the Common Council, in the month of February of each year, shall establish and grade the minimum rent to be paid per month upon all the meat stalls and vegetable and fish stands in the public markets. #### SPECIAL.

To the Honorable the Common Council.

Gentlemen—Your Special Committee, appointed to examine and report on the cause of the explosion in the County Clerk's office, respectfully report that we have given the matter very careful consideration and are satisfied that the explosion was of gas, which had accumulated in the vault in the County Clerk's office. We think one of the gas burners in said vault had been accidentally turned open while the gas meter was out of the building and when it was replaced and the gas turned on it escaped and filled the vault. How it was ignited we are unable to state. We do not consider the County Clerk nor any one in his department to blame; it was an accident, pure and simple, and while it is to be regretted we cannot but feel grateful that there was no loss of life and no serious personal injury. There was nothing to show that dynamite or any other explosive had been purposely placed there to wreck the vault. The statements and rumors to that effect were idle and uncalled for, if not sensational and vicious.

Respectfully submitted,

JAMES B. LAUDER,  
BENJAMIN GUINNEY,  
JOHN P. MARTZ.

Accepted and placed on file.

#### STREETS AND ORDINANCES.

MIKE MCGUIRE,  
J. E. LALLY,

#### JUDICIARY AND ORDINANCES.

To the Honorable the Common Council.

Gentlemen—Your Committee on Judiciary and Ordinances, to whom was referred the petition of Joseph Nigg and others relative to the conduct of the Salvation Army, so-called, at the corner of St. Aubin avenue and Sherman street, respectfully report that we have considered the matter of said petition and find that it is the practice of the persons constituting the said Salvation Army to parade the streets in the neighborhood of their meeting house every evening; that they seek to attract attention by singing, shouting, by the use of drums and tambourines, and in such a manner as to gather large and noisy crowds so as to obstruct the free use of the streets and sidewalks.

Your committee find further that the noises and disturbances made by these persons are very annoying to the neighbors, especially the sick and feeble, and express the opinion that they are often sufficient to be deemed a nuisance.

Your committee recommend that the Police Commissioners be requested by the

City Clerk to give more attention to the disorders alleged in this locality, and that they cause proper complaint to be made of all violations of law by the Salvation Army or others connected therewith.

Respectfully,

JOHN CHR. JACOB,  
P. E. KELLOGG,

ERNEST L. RESCHKE,

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen, I herewith return to your Honorable Body without my approval and signature the resolution adopted at your last meeting ordering the Controller to advertise for the paving of a portion of Lincoln avenue, and also ordering the Controller to transfer \$10,000 from the contingent fund to the general road fund. Both the Controller and

City Attorney hold that such a transfer of the money from the contingent fund would be in violation of the city charter. I am also informed by the City Controller that there is not sufficient money in the contingent fund to make the proposed transfer. While I have no doubt that the proposed pavement is both desirable and necessary it would, it seems to me, be best to first provide the necessary funds for paving the intersections, which I have no doubt your Honorable Body will find means of doing.

Respectfully

Mayor.

Gentlemen—In reading off the proposals for constructing Helen street sewer outlet, the Board inadvertently overlooked the reading of the verification of the figures in writing; consequently there is a discrepancy in Mr. Henderson's bid of \$1600. In the figure proposition it is proposed to construct the outlet for thirty-eight dollars and fifty cents per lineal foot, and in the written proposition he proposes to construct the outlet for thirty dollars and fifty cents per lineal foot.

Respectfully submitted,

Accepted and referred to the Board of Public Works.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—By the terms of the contract made with the Milwaukee Bridge and Iron Works for the construction and completion of Belle Isle bridge from the main land to Belle Isle the same should be completed and delivered over to the city for the use of the public on or before the 18th day of August, 1888. From present indications it is apparent that the bridge will not be completed within the time prescribed, and in fact not this year. Such being the fact, to protect itself against loss in consequence, it is imperative that the city or the Common Council in its behalf should take the necessary steps to declare a forfeiture of the contract, or extend the time for completing the bridge to a remote period.

The delay in completing this bridge will add materially to the expense attending the same, and should the time be extended the Milwaukee Bridge and Iron Works should be compelled to share, if not all, at least a portion of this extra expense.

The Board submits this matter to your honorable body for such consideration as in your wisdom may be for the interest of all concerned, and await your instructions therein.

Respectfully submitted,

W. H. LANGLEY,  
President.

Accepted and the following was offered by Ald. Hollman.

By Ald. Hollman.

Whereas, As represented in a communication from the Board of Public Works to the Common Council this evening the time, as prescribed in the contract therefor, for completing Belle Isle bridge will expire Aug. 18, 1888, therefore

Resolved, That the time for completing Belle Isle bridge from the mainland to Belle Isle be and is hereby extended from Aug. 18, 1888, to May 1, 1889; provided that the contractor therefor file with the Board of Public Works a satisfactory bond conditioned for the completion of said bridge on or before the aforementioned date.

Ald. Tierney moved that the whole matter be indefinitely postponed.

Lost.

The whole matter was referred to the Committee on Bridges.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—The Board of Public Works to whom was referred the petition of Cyrus O. Chipman and others, protesting against the paving of Baltimore avenue, west from Woodward;

Respectfully report that this avenue has not been ordered paved, and the indications are that it will not be paved this year, hence there is no necessity for further consideration of the petition.

Respectfully submitted,

W. H. LANGLEY,  
President.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—The Board of Public Works, to whom were referred the petitions of Curt Hoffman and the petition of Thomas Smith and others, asking for the paving of McDougall avenue from Gratiot avenue to Fremont street, respectfully report that the petitioners are the holders of the greater number of feet of lots directly fronting on the avenue proposed to be improved. The board therefore recommend that said avenue be ordered paved with cedar blocks on board foundation in the center and cobble stone gutters.

It is estimated that the pavement will cost about \$1.40 per square yard.

Respectfully submitted,

W. H. LANGLEY,  
President.

Accepted and by unanimous consent Ald. Lally offered the following:

#### FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—The Board of Public Works, to whom was referred the petition of James McMillan and others, representing the holders of the greater number of feet of lots fronting on that portion of the avenue proposed to be improved, for grading, paving, etc., Willis avenue from Woodward avenue to the west line of the Brush farm with cedar block and cobblestone pavement, respectfully report that this avenue was but recently opened and is in wet weather almost impassable.

By an endowment of Messrs. Newberry & McMillan an extensive hospital is being constructed, and when completed, in order to avail themselves of the advantages to be derived therefrom the sick and maimed should be conveyed over a smooth pavement. The Board in examining the condition of the roadway, as it is at present, would deem it hazardous to convey such persons over the same, and in order that due comfort may be afforded them to safe transit to and from said Hospital is desirable. There is but one intersection to be paved, which it is estimated will cost about \$300, which might be diverted from some other purpose in order to defray the expense of an improvement of undoubted public security. The Board therefore recommend that the prayer of the petitions be granted.

It is estimated that the pavement will cost about \$1.80 per square yard.

Respectfully submitted,

W. H. LANGLEY,  
President.

#### COMMITTEE ON ORDINANCE.

To the Honorable the Common Council.

Gentlemen—Your committee on ordinances to whom was referred the resolution relative to a garbage inspector, respectfully report that they have examined the same and find that at present the entire police force are required to give their attention in part to the sanitary condition of the city, and report to the proper authorities any violations of the ordinance regulating the same; in addition to this the sanitary police of whom there are some twelve men, give their entire attention to this work. Your committee are of the opinion that a garbage inspector would have to attend to the work that is now done by the police force and that one man would be able to attend to the same; that the appointment of such an officer and the creation of such an office would cause the police to exercise less diligence in this part of their duties, and that the city would not be as good as at present.

Therefore in the opinion of your committee then is no call for such an office and they recommend that the Council take no further steps in the matter.

MIKE MCGUIRE,

(OFFICIAL.)

DETROIT, TUESDAY, Aug. 7, 1888.

The Council was called to order by the President pro tem HON. CHARLES K. TROMBLY.

## THIRD READING OF ORDINANCES.

On motion of Ald. Kellogg, an ordinance to amend sections 1 and 2 of chapter 98 of the Revised Ordinances of 1884, laid over July 24, and again July 31 was taken from the table.

The ordinance was placed on the order of third reading.

Ald. Finney moved that the whole matter lay on the table for one week.

Carried.

## UNFINISHED BUSINESS.

On motion of Ald. Lally a report from the Committee on Streets and Ordinances, to whom was referred the petition of Levi L. Barbour and others relative to an ordinance to authorize certain persons to establish and operate a street railway, with all the necessary switches, standards, wires and appurtenances, in and along certain streets, avenues and public places in the city of Detroit, laid over July 31, was taken from the table. The ordinance was then read twice by title.

Ald. Lally moved that the ordinance be placed on the order of third reading.

Ald. Kellogg moved that the ordinance lay on the table for two weeks.

Carried.

Leave being granted the following minority report was offered by Ald. Bleser:

To the Honorable the Common Council.

Gentlemen—Your Committee to whom was referred the petition of Frank E. Snow and others, Levi L. Barbour and others and William C. Maybury and others for permission to construct and operate railways, beg leave to report that they have given the matter careful consideration and cannot recommend the adoption of the ordinances as presented to your body.

We consider that in the matter of streets, the ordinances grant the use of more streets than is necessary for the proper operation of the railways, and by so doing prevent the city from deriving future benefits that it would otherwise receive, by practically debarring other companies from the use of streets in the center of the city. Among the streets granted to these companies is Lafayette avenue, which is the only east and west thoroughfare west of Woodward avenue in the southern part of the city that is not already occupied by street car lines. We feel that the interest of the city at large demands that this thoroughfare shall be kept open for traffic.

In the eastern part of the city it is proposed to take possession of Congress and Fort streets, which are the only through streets that are not already occupied or proposed to be occupied with street car tracks by existing street car companies, and with these streets filled up, traffic to and from the park in vehicles must necessarily be interfered with.

In the northern part of the city it is pro-

posed to occupy both Park and Clifford streets, and when this is done there will not be a single thoroughfare from the northern portion of the city to the center but what is occupied by street car lines, and the streets are so narrow that driving on the outside of the tracks will always be attended with great inconvenience and wear and tear to vehicles. In none of these cases named are the lines proposed necessary for the accommodation of the people as they are already cared for by existing lines.

Your committee believe that the granting to any company the use of overhead wires in which to conduct the electricity to motors in the cars will be a great mistake, inasmuch as its use is necessarily attended with more or less danger and when the use of the wires is once established, it is very clear from our past experience that it will be almost impossible to secure their removal. The time may come and probably will, when the use of electricity for these purposes will be general, but we consider that it would not be safe for this community to allow any company to use our streets for experimental purposes to the detriment of our own city.

If the use of electricity is allowed, your committee claim that it would so reduce the expense as to permit of a very material reduction in the rates for fare. The inventor of one system, which it is proposed to put in operation in this city stated at a recent meeting in Boston, that he could build and equip an electric street car line at less cost than it would be possible to build and equip a horse car line, and that an electric line could be operated for less than one-half the expense attending the operation of a horse car line. If these facts are true, and we must assume that they are so, then it is clear that a large reduction in the rate for fare can be made without reducing the profits accruing to the company, and we consider that the least reduction that should be considered would be to carry all passengers between 6 and 8 A. M. and 5 and 7 P. M. at a rate of fare not to exceed 8 cents.

On account of the nature of our currency it might not be practical to make a single fare 8 cents, but this matter can be easily adjusted by issuing tickets in, say lots of eight tickets for 25 cents, to be good for passage during the hours named.

It each case it is proposed to make the franchise extend for a period of thirty (30) years, which your committee consider will work a serious injustice to the public and is entirely uncalled for, as fifteen or twenty years is certainly as long a period as should be granted any franchise. The investment in a street car line is not so great, but what the returns will fully recompense the builders on a fifteen years franchise, unless it should become absolutely bankrupt at the start and never be remunerative.

After careful examination of the matter your committee has been convinced that it would be for the interest of the public for this body to, either by itself or through some board of commission, whom it should so direct, to lay out a system of routes through which it would be advisable to operate street car lines, and to draw the franchisees in such a manner that the city's interest would be protected and to then instruct the Controller to advertise for proposals in the territory named, the franchise to be given to the company that will carry passengers for the lowest rate of fare.

Respectfully,

FRANK J. BLESER.

Laid on the table for two weeks.

On motion of Ald. Kellogg a report from the Committee on Streets and Ordinances relative to an ordinance to permit certain persons to establish and locate a street railway in and along certain streets in the City of Detroit, laid over July 31, was taken from the table.

The ordinance was read twice by title.  
Ald. Reschke moved that the whole matter lay on the table for two weeks.

Carried.  
On motion of Ald. Jacob a report from the Committee on Streets and Ordinances, to whom was referred the petition of W. C. #### FROM THE BOARD OF PARK COMMISSIONERS.

To the Honorable the Common Council of the City of Detroit.

Gentlemen—The attention of your honorable body is respectfully called to the following preamble and resolutions adopted by the board at its meeting held August 2, 1888, viz:

Whereas, Several years ago the Common Council granted a franchise to a private corporation to build and operate an Electric Railway on Belle Isle Park, and

Whereas, The Park Board, believing that the Park should ever remain in the sole and absolute control of the public who own it, and that no private person or corporation

should be granted any franchise or privilege thereon; and further believing that a railway of any sort would be out of harmony with a park, and that other pleasanter and more appropriate means of locomotion are available, has strictly refused to permit the said corporation to place its rails upon the Park, or take possession of any portion of its soil.

Resolved, That the board as at present constituted endorse and approve the action of its predecessors in this regard, and will never consent to the inauguration of a railroad or any other private enterprise upon the park.

Resolved, That the Board respectfully request the Common Council to repeal the franchise granted as above, and thus forever set at rest the public apprehension that the park or any part of it may fall into private hands."

Gentlemen—Your Committee on Taxes, to whom was referred the petition of Annie H. No denial was made of the receipt of the legacy of \$50,000 from the estate of the late Geo. H. Hammond, nor have the Assessors or your Committee anything to do with the disposition of the money by the recipient. The claim made by the petitioner's attorney that an understanding made between the executors of Mr. Hammond's estate and the Board of Assessors as to the amount that was to be assessed against the estate for personal property, was an agreement on the Assessors' part not to tax the beneficiaries under the will, was denied by the Assessors and cannot be accepted by your Committee. **FROM THE SAME.**

To the Honorable the Common Council.

Gentlemen—Your Committee on Street Openings, to whom was referred the petition of Amos Chaffee for relief from the tax for the land taken in the widening of Willis avenue, respectfully report that they have considered the same and find that the verdict of the jury was confirmed in June, 1887; that case was appealed to the Supreme Court by the city, and that court in an opinion filed in February, 1888, refused to set the verdict aside; that the strip of land taken in widening the street was owned by Emily Chaffee and was assessed to Amos Chaffee, together with the adjoining land owned by him; your Committee are of the opinion that as the land has been acquired by the city for the purposes of a street, by a verdict rendered in 1887, that the land should not be taxed for the year 1888. Your Committee also believe that the question of ownership and the manner of assessment would be raised in the collection of the tax. The entire land is taxed \$788.57. Mr. Chaffee is ready and willing to pay the portion upon his land, which would be \$545.59. Your Committee therefore recommend that the Controller be directed to draw his warrant on the proper fund in favor of Amos Chaffee for \$242.98, upon the presentation and surrender of the proper receipt showing that he has paid the entire tax on the property on Willis avenue as assessed to him. The proper resolution is herewith submitted.

## PETITIONS PRESENTED.

BY ALD. LAUDER.

Of Father Van Dyke, protesting against a sewer between State and Grand River avenue. Referred to Committee on Sewers.

Of Thompson-Houston Electric Light co., to remove a pole light from the southeast corner of Bates street and Cadillac square to the northeast corner of said streets. Granted.

BY ALD. FAIRBAIRN.

Of William J. Fowler, remonstrating against a sewer in the alley between Merrill, Commonwealth, Kirby and National avenues.

Referred to Committee on Sewers.

BY ALD. FINNEY.

The following was ordered printed in the proceedings:

To the Common Council of the City of Detroit:

The undersigned citizens, owners and occupants of property on and near Alfred and Bagz streets, earnestly protest and remonstrate against the use of those streets by the proposed street railway for, among others, the following reasons:

First. There is no public necessity for the proposed railway, and particularly between Brush and Trumbull avenues, the wants of the residents being sufficiently supplied by the Brush street, Woodward avenue, Third avenue, Grand River and Trumbull avenue lines, and the demand along these streets for a railway across the city is a very slight one, not sufficient to justify the use of the streets against the desire of residents on them.

Second. If an east and west street railway is needed across the city we believe it should be laid nearer to the business portion of the city. Alfred and Bagz streets are solely resident streets and the placing of a street railway on them when it is not needed will result in the depreciation of values and be an obstruction and an annoyance, and the Common Council should not force a road upon us without the strongest public necessity.

Third. We particularly protest against a street railway using an overhead electrical current with its unsightly poles, brackets and dangerous uncovered wire.

The undersigned citizens, owners and occupants of property on and near Alfred and Bagz streets, earnestly protest and remonstrate against the use of those streets by the proposed street railway, for among others the following reasons:

First. There is no public necessity for the proposed railway and particularly between Brush and Trumbull avenues, the wants of the residents being sufficiently supplied by the Brush street, Woodward avenue, Third avenue, Grand River and Trumbull avenue lines, and the demand along these streets for

a railway across the city is a very slight one, not sufficient to justify the use of the street against the desire of residents on them.

Alfred and Bagg streets are solely resident streets and the placing of a street railway on them when it is not needed would result in the depreciation of values and be an obstruction and an annoyance, and the common council should not force such a road on us without the strongest public necessity.

To the Common Council of the City of Detroit.

The undersigned citizens of the city of Detroit, residing on or owning property on Fourth avenue, Bagg and Clifford streets, respectfully and earnestly remonstrate and protest against the laying of a street railway on those streets, as is now proposed by an ordinance now before the Common Council, for the following among other reasons:

First. No street should be encumbered by a street railway unless there is a strong public necessity for it, and there is none in this case, as the public want is already supplied by the Third Avenue road.

Second. That the withdrawal of custom from the present line by dividing it with a parallel competing road will only result in poor service of both roads.

Third. That there is already a railway on one side of Park street, and it would be inconvenient and annoying and to some extent dangerous to put another road bordering on the park, and if this street railway is a necessity it should be placed on another thoroughfare.

Fourth. That Clifford street, and the upper part of Griswold especially as well as Fourth avenue and Bagg street are too narrow between the curbs for a street railway, and Clifford street is the leading thoroughfare for vehicles going to the upper part of the Jones and Cass farm, Cass avenue not being used on account of its street railway.

Fifth. We especially protest against any system of street railways using overhanging wires, requiring the use of poles and arms of brackets extending over the street with an uninsulated wire carrying heavy currents of electricity; such a system is not only unsightly and dangerous, is a great obstruction to the use of fire apparatus, but otherwise obstructs and interferes with the use of the street and the rights of adjacent property owners and occupants.

The following was ordered printed in the proceedings:

To the Honorable the Common Council of the City of Detroit.

The undersigned, citizens of the City of Detroit, residing on or near Clifford street and Cass avenue, do hereby respectfully and earnestly remonstrate and protest against the occupancy and appropriation of Clifford street in said city for street railway purposes, especially for an electric railway propelled by over-hanging wires, for the following reasons, to-wit:

First. Because said Clifford street is a leading thoroughfare to the northwestern part of the city and is the continuation of upper Cass avenue, for which a policy has already been adopted by previous Councils that it should be free from all railway purposes and open for the use of carriages and other appropriate purposes.

Second. Because Clifford street is the only direct street leading to the upper Cass farm and the Boulevard, which is free from railway obstructions.

Third. Because Clifford street is much too narrow to be occupied by a street railway

and to be used conveniently for any other street traffic.

Fourth. Because there is no immediate or ultimate demand for a street railway running up Clifford street along parallel to the Cass Avenue railway, as is proposed.

Fifth. Because the proposed electrical railway is intended to be propelled by an over-hanging wire suspended from unsightly poles by frequent cross-wires across the streets, which would be very objectionable to any respectable street in the City of Detroit, both on account of its appearance and on account of its obstruction in case of fire.

Sixth. Because said electrical railway propelled by said overhanging wire your petitioners believe to be dangerous, uncouth and crude in the application of electricity for the purpose of locomotion and should not be permitted on any leading street in our city.

BY THE CLERK.

Ordered printed the proceedings. To the Honorable the Common Council of Detroit.

Gentlemen—With a full realization of the regard in which the common interests of the people of Detroit is held by your honorable body, the Council of Trade and Labor Unions begs leave to ask your earnest consideration of a request which it, as the representative body of a large number of the working people of this city, whose interests are common with those of the mass of the people, wishes to make in relation to municipal transportation.

This question is of vital importance to the people, and in approaching you we feel that we do not transgress any law of propriety, nor violate any rule of good taste. We believe the right of petition to be inherent in popular government and conceive that it is not only a privilege, but the duty of the people to avail themselves of every method and opportunity to make known to legislative bodies every desire for change in systems which are generally recognized to be in a degree subject to public regulation and control. Therefore we hope that you will view our request as perfectly legitimate in all its bearings, and not made in a super-suggestive or dictatorial spirit.

Our proposal is that the franchises of the various street railways of the city of Detroit be so amended as to require them to carry passengers between the hours of 6 and 8 in the morning and 5 and 8 in the evening at three cents per passenger.

In the event of your body's taking hold of the matter it is probable, that, as usual, objections, plausible on their face will be raised as to the practicability, especially on the part of the companies. Corporations never concede a point to the people without a stubborn resistance, and without exhausting every resource which ingenuity, cunning and money can render available. But, we trust that, backed by public sentiment, your body in its wisdom and experience will prove equal to every difficulty.

It is hardly necessary to enlarge upon the justice and necessity of some move in the direction indicated. The demand for such a change is widespread. The reason for its not having been more emphatic heretofore has been lack of confidence and a guiding spirit.

That the street car companies can well afford to make this reduction at the periods of day named above is indisputable. The necessity for this reform is one of the most posi-

tive that confronts the municipal government. The great majority of our people who work, whether with hand or brain, is compelled to take one or two cars when going to work in the morning, and one or two when returning home in the evening. To the average wage-worker, ten or twenty cents a day, for street car fare alone, is a heavy drain. Indeed, to a great many of the lower paid people, a ride to or from their daily field of labor is a luxury to be indulged in only on such rare occasions, as during a rain storm, when, by the grace of somebody, they are permitted to attach themselves to a car ribbed mass of humanity, which may or may not believe itself to be protected from the rain. These men, women and children are compelled to rise very early in the morning, long before having had sufficient sleep, and walk miles to a hard day's work. And so in the evening they again have to drag their weary bones miles before reaching home.

The street car is the outgrowth of an inevitable condition in modern city industrial life. That condition is the necessarily long distance between home and work. Transportation is as indispensable to some of us as the noonday meal. But, unlike the latter, it cannot be purchased in a market where, to a degree at least, the law of competition is in force. If the price of a certain commodity is too high at one place the purchaser can go to another, and so on until suited. In purchasing transportation, however, the citizen must pay whatever is demanded, take what he gets, or walk.

When corporations become totally insensible of their responsibilities to the people by whose will and suffrage they exist, it is high time the people's representatives brought them to a realizing sense of just what they are in the common fabric.

We do not aim to harass the street railway companies because they are corporations. We simply ask you to assume a function which clearly attaches to your body and fix the price of a necessity, naturally monopolized, a little closer to the standard of fair profit.

Respectfully,  
COUNCIL OF TRADE AND LABOR  
UNIONS.

Secretary.

To the Honorable the Common Council.

Gentlemen—The Board of Public Works, respectfully call your attention to the present unsatisfactory condition of the outlet and sewer in Twenty-first street. The outlet, on account of the extension of the docks, on either side has become inadequate for the service required, and in order to make the

outlet serviceable it is necessary to extend the same into the river about thirty-six feet; also that street portion of the brickwork of the sewer extending about 336 feet north, owing to the inefficiency of the spiles, has spread and leaves an opening or cave in a certain portion of the sewer which should be closed.

It is important for the protection of the sewer and outlet, that these defects should receive immediate attention, and the Board recommend that authority be given to advertise for proposals for making the necessary repairs to said sewer and outlet.

It is estimated that the whole cost of the whole work will amount to about \$2500.

Respectfully submitted,

W. H. LANGLEY,  
President.

## TAXES.

To the Honorable the Common Council.

Gentlemen—Your Committee on Taxes, to whom was referred the petition of Thomas Doyle, to be refunded an alleged erroneous assessment, respectfully report that as the mortgage in question appears on the record, and is not discharged, we do not see how it can be construed erroneous. We therefore recommend that his prayer be denied.

Respectfully submitted,

SEYMOUR FINNEY,  
GEO. F. REICHENBACH,  
JAMES TIERNEY.

Accepted and adopted.

## FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Taxes, to whom was referred the petition of the Hargreaves Manufacturing company, for relief from an alleged erroneous assessment, respectfully report, that the investigation had before your committee, showed that the assessors had made use of their own sworn statement, filed with the county clerk, for determining the amount assessed, using their own language in describing the items and values, so that the assessment can not be declared erroneous. The petitioners claim that the amount set forth in their statement, represented the footings of certain representative accounts in their books, and show a very much larger sum than the real value

of the property therein represented, which claim we think is correct; but the time and place for them to have submitted their claims was before the Board of Review; your committee cannot step in at this late hour to correct their error in not looking after their own interests. They stated, and it was not denied, that one of the assessors told them that their assessment was in accord with their statement, which is true, but it would seem that they assumed that the assessors knew that the statement showed a greater value than the property assessed really possessed. While we are of the opinion that the amount of their assessment is excessive, we cannot, in view of our official obligation, make any other recommendation than that their prayer be denied.

Respectfully submitted,

SEYMOUR FINNEY,  
GEO. F. REICHENBACH,  
JAMES TIERNEY.

Accepted and adopted.

## FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Taxes, to whom was referred the petition of Henry C. Penny to be refunded an alleged erroneous assessment, respectfully report that the firm of H. C. Penny & Co., dealers in undertakers' supplies, sold out their business to the Detroit Burial Case & Casket Co. for \$7000, which amount was entirely used to pay the debts of H. C. Penny & Co., and neither Mr. Penny or his partner, Mr. Edgar Lewis, receiving any portion of the same for their own benefit. The assessors, having knowledge of said sale, did, as in duty bound, assess the proceeds as so much cash to Mr. Penny, sending him a postal notice thereof. This notice, he avers, he did not receive. His partner claimed before the assessors that the firm did not benefit by the receipt of the \$7000, nor did he personally; but he did not state that the money was used to pay the debts of Penny & Co., nor that H. C. Penny did not benefit by the payment; hence the assessment to the latter. It is not the assessors' fault, nor yet your committee's, that Mr. Penny did not attend to his personal interest at the proper time; he must abide the result of his own negligence. We recommend that his prayer be denied.

Respectfully submitted,

SEYMOUR FINNEY,  
GEO. F. REICHENBACH,  
JAMES TIERNEY.

Accepted and adopted.

## FROM THE SAME.

Respectfully submitted,

SEYMOUR FINNEY,  
GEO. F. REICHENBACH,  
JAMES TIERNEY.

Accepted and adopted.

By Ald. Lauder.

Whereas, To the long and illustrious list of eminent men whom death has summoned in the past year is now added the name of one of our country's heroic soldiers and unselfish patriots, Gen. Philip H. Sheridan, it is by the Common Council of the City of Detroit, which he has often honored with his presence, and among whose citizens he is so widely known and affectionately esteemed,

Resolved, That this city shares, with especial feeling in the grief which the death of this renowned general and noble citizen casts like a pall over our entire country.

From his assumption of the command of the cavalry regiments of this state through each successive grade to the highest rank in the army of the United States his career was a continued course of victory, whether in the cedar brakes at Stone River or among the bloody pines of Chancellorsville in the West or the brilliant and fearless charge of his resistless cavalry in the Army of the Potomac.

But even such unparalleled success could not make him unmindful of his duty. While the honors of his high command and the glory of his great achievements were still fresh upon him he went personally to superintend a campaign against the Indians and successfully to direct the movements of a body of troops scarcely larger than his former body guard.

Truly might it have been said of him "He that ruleth his own spirit is greater than he that taketh a city."

In peace simple, modest and unaffected he won the affection of all who knew him. But in war vigorous and imperious he seemed "like love to threaten and command."

Resolved, That we with sincere respect ex-

tend to his stricken wife and family our heartfelt sympathy in their great bereavement and commiserate the entire country on its irreparable loss.

Resolved, That these resolutions be spread upon the Journal of the Common Council and a copy of them suitably engrossed and certified under the great seal of the City be forwarded to the family of the dead hero.

To the Honorable the Common Council.

Gentlemen—The Board of Public Works, to whom was referred the following resolution, to wit:

By Ald. Reichenbach.

Resolved, That the Board of Public Works be and they are hereby requested to investigate the pavement on Congress street, between Beaubien and Hastings, and report to this board at its next regular session the advisability of repaving the same. Money has

been appropriated for one block, and for the other a sufficient sum could be taken from the money appropriated for the repaving of Antoine from High to Adelaide streets; said street is in good order and will do for three years hence.

Respectfully report that the Charter provides that the Board of Public Works shall transmit in detail estimates to defray the expenses of the various works under its supervision, which would imply that the funds for such purposes could not be diverted therefrom to other purposes until after the work so provided for shall have been completed, when the surplus, if any, there shall be disposed of as is provided in said Charter. Taking this view of the subject matter reference, the Board is of the opinion that after the estimates for certain specified purposes have been approved by the Common Council and Board of Estimates the funds so appropriated cannot, legally, be diverted from the purpose stipulated and applied in extending improvements not provided for in the estimates.

Respectfully submitted,  
W. H. LANGLEY,  
President.

Accepted and concurred in.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—In examining the salaries paid the secretaries of the various Boards in the city and the deputies in the City Hall as compared with the salary paid the secretary of the Board of Public Works, it is found that the amount paid the latter for like services and responsibility are disproportionate and inconsistent with fairness and justice, the latter being paid from 66 to 100 per cent less than the former.

In the opinion of the Board it is inconsistent with good government to discriminate in apportioning salaries for like and equal services, and each officer should be paid a salary commensurate with the services and responsi-

bility attending his position. If the salaries paid the deputies and other secretaries are just then the salary of the Secretary of the Board of Public Works is insufficient for the services imposed, and should be put on a basis equal to the amount paid others for similar services.

The salary of the Secretary of the Board of Public Works has been stationary since the organization of the Board, when the population of the city was about 125,000, to the present time when it is estimated that the population is from 225,000 to 250,000. The duties of the position have increased with the increase in population, and are now at least 100 per cent in excess of the time when the salary was fixed. The increase of duties is undoubtedly the basis on which salaries have been increased by your honorable body, and the Board viewing the subject matter in the same light unhesitatingly recommend that your honorable body give due and just consideration in placing the salary of the Secretary of this Board on the same footing with other salaries now paid, to wit, \$2000 per annum, and that the same be paid out of the Board of Public Works General Fund.

The following salaries are now paid:

Deputy Controller.....	\$2,000 00
Deputy Clerk.....	2,000 00
Deputy Treasurer.....	2,000 00
Deputy Attorney.....	2,000 00
Secretary Board Public Works.....	1,500 00
Secretary Board Education.....	2,500 00
Secretary Board Water Commis-	
sioners.....	3,000 00
Secretary Police Department.....	2,500 00
Secretary Fire Department.....	2,200 00
Secretary Park Commissioners.....	2,000 00

Respectfully submitted,

W. H. LANGLEY

President.

By Ald. Lally.

Whereas, Section 13 of the act establishing the Board of Public Works provides that said board may fix the salary of its secretary et al., as shall be from time to time determined by the Common Council;

Whereas, It is the opinion of the board that the salary of its secretary is inadequate for the services required and should be increased to \$2000 per annum; therefore,

Resolved, That the recommendation of the Board of Public Works fixing the salary of the secretary of said board at \$2000 per annum to date from July 1, 1888, be and the same is hereby concurred in, and that said amount be paid out of the Board of Public Works' general fund.

Accepted and referred to the Committee on Ways and Means.

JOHN P. MARTZ,

**FROM THE SAME.**

To the Honorable the Common Council.

Gentlemen—Your Committee on Sewers, to whom was referred the protest of H. H. Humphreys and others against the construction of a lateral sewer in the block bounded by Park, Washington and Grand River avenue, respectfully report, that this protest refers to the petition of the Johnston Optical Company and others, for a sewer which was referred to the Board of Public Works July 10, 1888, and the report of said board recommending the same of July 17, 1888. We have examined into the situation of the present lateral sewer, and are satisfied that there is no necessity for another one, but the building of it would be an injustice to those who have already paid for the one that is there. The Johnston Optical Company can secure all the drainage they require by extending their connection a few feet, until it joins the present sewer at a depth sufficient to accommodate their new building, and which would cost not over \$20 to do. We therefore recommend that the prayer of the protestants be granted, and that a new lateral sewer be not constructed.

Respectfully submitted,  
JOHN P. MARTZ,  
JAMES TIERNEY,  
JACOB F. MEIER.

Accepted and adopted.

**FROM THE SAME.**

Respectfully submitted,  
JOHN P. MARTZ,  
JAMES TIERNEY,  
JACOB F. MEIER.

Adopted as follows:

Yeas—Ald. Amos, Bleser, Fairbairn, Finney, Gilmore, Griggs, Guiney, Hollman, Jacob, Karrer, Kellogg, Lally, Launder, McIntyre, Martz, Meier, O'Regan, Peterkin, Reichenbach, Smith, Reschke, Reves, Tierney, Uthes and the President pro tem.

**TAXES.**

To the Honorable the Common Council.

Gentlemen—Your Committee on Taxes, to whom was referred the petition of the Michigan Mutual Life Insurance Company for relief from an alleged erroneous assess-

ment, respectfully report that we have very carefully considered the matter and herewith present the written opinion of Assistant City Counselor Warren thereto:  
Hon Seymour Finney, Chairman Committee on Taxes.

Dear Sir—In the matter of the petition of the Michigan Mutual Life Insurance Company, asking to be relieved from an alleged erroneous assessment, referred to me by your committee, I have to say that in my opinion the assessment as made by the assessors should stand. The report of the Insurance Commissioner for the year 1887 shows the total assets of this company to be \$1,765,333.13; total liabilities, \$1,490,107.39, leaving a balance as net assets of \$306,225.14. From this should be deducted the amount of real property owned by the company, which said report shows to be \$92,473.66, leaving a balance of \$312,752.08, for which, in my opinion, said company should be assessed.

It is claimed by the company that certain items mentioned in said report, aggregating \$45,034.54, are not assets within the meaning of section 4, act No. 153, of the Public Act of 1885, and therefore ought not to be included in their assessment for the current year. In this I am unable to concur. While the Insurance Commissioner may not consider these items available assets "as regards policy holders," I am of the opinion that they are assets within the meaning of the section above referred to, and I therefore recommend that the prayer of the petitioner be denied.

Very truly yours,  
FRED H. WARREN,  
Assistant City Counselor.

It is the opinion of your Committee that if the \$45,000 assets are of sufficient value to justify the company in including them in their printed statement of assets to induce patronage, they should not object to being assessed upon their own valuation. If there is any just ground for them to ask for a reduction, they alone are to blame for not showing cause at the time and place provided by law. They must abide the result of their own negligence. We recommend that their prayer be denied.

Respectfully submitted,  
SEYMOUR FINNEY,  
GEO. F. REICHENBACH,  
JAMES TIERNEY.

Respectfully

WM. B. MORAN.  
Controller.

Accepted and referred to the Committee on Claims and Accounts.

FROM THE CITY COUNSELOR.

To the Honorable the Common Council.  
Gentlemen—In the matter of the Fort Street Bridge over the tracks of the Michigan Central railroad the company has prepared plans and specifications for said bridge, and is ready to submit the same to the proper city authorities for approval, and enter into a contract for the construction of the same in accordance with the proposition hereto-

fore made, the city on its part agreeing to keep the street and sidewalk planking in repair.

I suggest that the matter be referred to the Committee on Bridges for consideration and report.

Very truly,

JOHN W. McGRATH,  
City Counselor.

Communication received and recommendation concurred in.

FROM THE SAME.

To the Honorable the Common Council.  
Gentlemen—As instructed by your resolution adopted August 27th, I have to report that the amount due the city from the Michigan Central railroad, in the Marquette Street Bridge matter, October 28, 1888, was \$1,486.40. This amount was determined in the manner provided by the agreement between the city and railroad company, and I find that on the date named, a committee of your body reported this amount as due, and a resolution was adopted, directing the controller to render a bill to the Michigan Central Railroad Company for the aforesaid amount.

See proc. Board of Aldermen for 1888, page 560-1. Proceedings Board of Councilmen 1888, page 113. Upon inquiry I learn that no such bill has ever been sent to the company, and that the latter has been ready, and is now ready to pay over this amount whenever requested. Yours etc.

JOHN W. McGRATH,  
City Counselor.

Accepted and the City Controller be instructed to collect the amount.

FROM THE SAME.

To the Honorable the Common Council.  
Gentlemen—I submit a communication from John Bauer and another asking permission to have the bill filed against the city in the Myrtle street paving matter dismissed as to them without costs. I recommend that leave be granted.

Yours etc.

JOHN W. McGRATH,  
City Counselor.

The following communication, viz:  
To the Honorable the Common Council.  
Gentlemen—We the undersigned, two of the complainants in the suit of William N. Dixon et al. against the City of Detroit et al., would respectfully represent that we have paid the assessment against us for paving Myrtle street, and we are anxious that the aforesaid suit against the City be discontinued and we relieved from all responsibility in the matter.

We therefore ask your honorable body to permit the bill in said matter to be dismissed as to us without costs. Another of the complainants, Thomas Clippert, has died since said suit was commenced.

Yours,

S. WILKE,  
JOSEPH BAUER.

Accepted, and the communication from City Counselor was concurred in.

Accepted and referred to the Committee on Ways and Means.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council.

Gentlemen—From present appearances the stone steps on the Michigan avenue side of the City Hall seems to have taken umbrage at the attention paid the steps in front of the City Hall, on the Woodward avenue side, and manifest their aversion of the same by separating from each other and forming disjointed and unsightly proportions. In fact, the steps on the Michigan avenue side of the City Hall are in a dilapidated condition, and if permitted to remain so much longer will become a mass of ruins. The board therefore respectfully recommend that authority be given to advertise for proposals for reconstructing the same.

To reconstruct these steps, together with proper repairs to the platform, it is estimated that it will cost about \$1,000.

Respectfully submitted,

W. H. LANGLEY,

President.

By Ald. Guiney.

Resolved, That the Board of Public Works be and are hereby directed to advertise five days for proposals for reconstructing the platform and stone steps in front of the City Hall on the Michigan avenue side.

Adopted as follows:

Yeas—Ald. Amos, Burt, Fairbairn, Finney, Gilmore, Griggs, Guiney, Hartness, Hayes, Hollhan, Jacob, Karrer, Kellogg, Lally, Lauder, McGuire, Martz, Meier, O'Regan, Peterkin, Pfeiffer, Reichenbach, Reschke, Reves, Smith, Tierney, Trombly, Uthes and the President—29.  
Nays—None.

FROM THE SAME.

To the Honorable the Common Council.

Yours respectfully,

C. CURRIE,  
Secretary.

#### REPORTS OF COMMITTEES.

##### WAYS AND MEANS.

To the Honorable the Common Council.

Gentlemen—Your Committee on Ways and Means, to whom was referred the reports of the various city officers for the week ending August 21, 1888; also the report of the Fire Marshal for the month of July, 1888, respectfully report that with the Chief Accountant we have examined the same, and believing them to be correct recommend their approval.

##### CLAIMS AND ACCOUNTS.

To the Honorable the Common Council.

Gentlemen—Your Committee on Claims and Accounts, to whom was referred the Controller's list of approved accounts of the 4th of September, respectfully report that they have examined the same, and believing them to be correct, would recommend that they be paid from the proper funds.

Respectfully submitted,

JAMES HOLIHAN,  
SEYMOUR FINNEY,  
FERDINAND AMOS.

Accepted and adopted as follows:

Yeas—Ald. Amos, Burt, Fairbairn, Finney, Gilmore, Griggs, Guiney, Hartness, Holihan, Jacob, Kellogg, Lally, Lauder, McGuire, Martz, Meier, O'Regan, Peterkin, Pfeiffer, Reichenbach, Reschke, Reves, Smith, Tierney, Trombly, Uthes and the President—27.  
Nays—None.

##### STREETS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Streets to whom was referred the petition of Joseph Perren to be refunded a portion of the assessment for paving Grandy avenue, respectfully report that as the 60 feet on which he asks to have the assessment refunded, have been deeded to the city for the opening of Warren and Hancock avenues, it would be unjust to ask him to pay for the paving of those intersections. We therefore recommend that his prayer be granted, and herewith present the proper resolution.

Respectfully submitted,

J. E. LALLY,  
J. HAYES,  
E. J. BLESER.

Accepted, and on leave the following was offered:

By Ald. Lally.

Resolved, That the City Controller be and he is hereby authorized and directed to draw his warrants on the proper fund in favor of Joseph Perren, for \$147.80 upon presentation and delivery of the receipt showing that he has paid the assessment for paving Grandy avenue, in front of outlot No. 10, Chene farm, private claim 733, subdivision of Gabriel Chene's estate, amounting to \$1045.24 in the year 1888.

Objected to and laid over under the rules.

##### TAXES.

To the Honorable the Common Council.

Gentlemen—Your Committee on Taxes, to whom was referred the petition of George H. Hammond, Jr., administrator of the estate of George H. Hammond, deceased, for relief from an assessment on personal property valued at \$100,000, respectfully report

that from the evidence presented we cannot discover that any injustice has been done in making said assessment. If there was just ground for asking for a lower valuation it was the duty as well as privilege of the petitioner to show cause before the Board of Review, and failing to obtain what he may have considered justice from them, he had the right of appeal to the committee appointed by the Common Council to hear complaints in relation to assessments, and to make such corrections as they might deem proper. Having failed to exercise such privilege he cannot now ask this body to relieve him from the result of his own neglect. He must abide the penalty. We recommend that his prayer be denied.

Respectfully submitted,

SEYMOUR FINNEY,  
GEO. F. REICHENBACH,  
JAMES TIERNEY.

Accepted and adopted.

##### FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Taxes, to whom was referred the petition of George H. Hammond, Jr., for relief from an assessment on \$50,000 of personal property, respectfully report that the petitioner claimed before your committee that he had lost, given away, invested and otherwise disposed of the money received from his father's estate, so that he was no longer possessed of the same. We do not question his statement, but he should have had his alleged wrongs righted by the Board of Review, and if justice failed him there, he should have appealed to the Committee appointed by the Common Council to consider all complaints in relation to the assessment rolls. Your Committee can not recommend your honorable body to set aside its own verdict, which it recorded when it adopted the assessment rolls for the fiscal year, 1888. The petitioner must abide the result of his own neglect. We recommend that his prayer be denied.

Respectfully submitted,

SEYMOUR FINNEY,  
GEO. F. REICHENBACH,  
JAMES TIERNEY.

Accepted and adopted.

##### FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Taxes, to whom was referred the petition of Geo. H. Hammond, Jr., asking to be relieved from an assessment on lots 10 and 12 of Hammond's subdivision of lot 51, private claim 30, north of Michigan avenue, respectfully report that when the matter was under consideration the petitioner asked leave to withdraw his petition, and we recommend that he be allowed to do so.

Respectfully submitted,

SEYMOUR FINNEY,  
GEO. F. REICHENBACH,  
JAMES TIERNEY.

Accepted and adopted.

##### FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Taxes, to whom was referred the petition of the Detroit Manufacturing Company to be refunded the amount paid on an alleged erroneous assessment of \$3000, respectfully report that it appears upon investigating the matter, that by the proceedings of the Common Council of May 3, 1888, the assessment against this company (Charles A. Werner, trustee), was reduced from \$18,000 to \$3000. We are unable to discover wherein said assessment can now be declared erroneous. We therefore recommend that the prayer of the petitioner be denied.

Respectfully submitted,

SEYMOUR FINNEY,  
GEO. F. REICHENBACH,  
JAMES TIERNEY.

Accepted and adopted.

## FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Taxes, to whom was referred the petition of John Eib for relief from an assessment on a certain mortgage, respectfully report that it appeared from the evidence presented, that the petitioner called at the Assessor's office and asked to have the assessment cancelled, claiming that the mortgage was paid. He was informed that when he should present official evidence of the discharge from the Recorder's office, then the assessment would be cancelled. It was stated that somebody told him in the Recorder's office that it was not necessary for him to return to the Assessor's office, for the recording of the discharge was all that was required. He should have been guided by the instructions given him by the Assessor, as he elected to be governed by other advice he has no one to blame but himself. Moreover, it was not shown that he did not have the money received from the mortgage. We recommend that his prayer be denied.

Respectfully submitted,  
SEYMOUR FINNEY.  
JAMES TIERNY.

Accepted and adopted.

## SPECIAL COMMITTEE.

To the Honorable the Common Council.

Gentlemen—Your special committee, to whom was referred the resolution of Ald. Holihan to confer with the Belt Line Railroad Company and the State Railroad Com-

missioner in reference to the lowering of the bridge constructed by the railroad company named on Jefferson avenue over their tracks, respectfully beg to report as follows:

We conferred with the authorities of the railroad company on the subject, and obtained from them the admission that the bridge was built higher than the specifications. This was caused by an error on part of the chief engineer of the road. The company, upon ascertaining this, telegraphed the fact to the Railroad Commissioner, who ordered the lowering of the bridge one foot. This work has been done, and the bridge is now in accordance with the original specifications and the desires of your committee, which believes that when the grade of the western portion of the street is changed to conform with the grade of the bridge matters will be satisfactory.

## COMMUNICATIONS FROM CITY OFFICERS.

FROM THE MAYOR.

To the Honorable the Common Council.

Gentlemen:—I herewith return to you, without my approval and signature, an ordinance granting a franchise to W. A. Jackson, Frank E. Snow, John F. Talbot, and their associates, to operate a street railway over certain streets in Detroit.

Our Street Railway service has become a matter of great importance. We require added facilities and cheaper fares, and, no doubt this necessity will keep pace with the growth of the city. The experience we have had with the franchise now operating in this city, should teach us wisdom. We know that they are enjoying very valuable privileges with comparatively no return advantages to the city. In granting that which is a practically

an exclusive right to use a public street, we should be able either to secure, by way of rental, and adequate return for the privilege, or a benefit by way of the lowest possible fares, an to accomplish these things, I believe a change should be made in our policy of granting franchises.

In establishing new routes, the present and future requirements of the city should be considered, with a view of getting the greatest possible facilities while encumbering the least number of streets. To accomplish this, I believe that the Common Council should of itself determine what new routes are necessary and specify all requirements in connection with the same.

The adoption of such a plan would forever remove the opportunity for scheming speculators to juggle with our streets.

To obtain the best return, either by way of rental, bonus or the lowest possible fares, it is only necessary to place every franchise, to be given hereafter, upon a fair basis of competition.

I believe that the adoption of the policy outlined above would result in cheaper fares, better service, and eventually bring about the one-fare system from point to point over different lines.

Our citizens have a just ground of complaint if these valuable privileges are bartered away, irrespective of these considerations. The charge is openly made that this is done, and the Common Council, as well as the executive head of the city, should hesitate before laying themselves open to so grave a charge.

If the localities through which the railway proposed in this franchise is intended to run are in need of such a line, then let the Common Council establish the route, open the franchise to fair competition, and have the same built upon its merits.

JOHN PRIDGEON, JR.,

Mayor.

Ald. Jacob moved that the communication be received, and that the vote by which the ordinance was adopted be reconsidered.

Carried as follows:

Yeas—Ald. Amos, Bleser, Burt, Fairbairn, Gilmore, Griggs, Guiney, Hartness, Hayes, Holihan, Jacob, Karrer, Kellogg, Lauder, McGuire, McIntyre, Martz, Meier, O'Regan, Peterkin, Pfeifer, Reichenbach, Reschke, Reeves, Smith, Tierney, Trombly, Uthes and the President—29.

Nays—None.

## FROM THE SAME.

To the Honorable the Common Council.

Gentlemen the Board of Public Works to whom was referred the petition of Thomas Beggs and others for, and the petition of Edward C. Robinson and others remonstrating against paving Elizabeth street from the east line of Antoine street to the east line of L. Moran farm, respectfully report that the whole frontage of lots on the street proposed to be paved is 1798 feet, of which the petition for improvement purports to represent 906 feet, but from this petition one of the petitioners disclaims having signed or authorized the signing of the same; Also that one of the lots is represented as being 30 feet in excess of what it actually contains, thereby lessening the number of bona fide feet for the improvement to 840, or 50 feet less than a majority. Under these circumstances the Board recommend that the prayer of the petitioners for paving the street be denied.

Respectfully submitted

W. H. LANGLEY,

President.

Accepted and referred to the Committee on Streets.

## FROM THE SAME.

Whereas, In compliance with the resolution of the Common Council, the Board of Public Works did advertise for proposals for the construction of said sewer and did report to this Board on the 14th day of August last the bids that were received, and recommend that a contract be awarded to John Wagner, the lowest bidder therefor, and

FROM THE CITY COUNSELLOR.

To the Honorable the Common Council.  
Gentlemen—Anson Badger, one of the respondents in the Jefferson avenue street widening case, has appealed to the supreme court, and the case is for hearing at the coming October term of that court. As I am informed, there was an understanding between the local parties interested in the improvement and Mr. Badger, that the matter would be settled, but Mr. Badger complains that the understanding has not been carried out, and he is pressing his suit.

I am advised, that the matter can be settled for \$500, or perhaps less. It will hardly pay to jeopardize this improvement by a trial of the questions raised in their appeal, and I would suggest a settlement.

The owners of adjoining property should be given an opportunity to pay this amount, or at least contribute. I therefore recommend that the matter be referred to a committee to report at an early day.

Yours, etc.,

JOHN W. McGRATH,  
City Counselor.

Accepted and referred to the committee on Claims and Accounts

FROM THE SAME.

To the Honorable the Common Council.  
Gentlemen—I have to report that the case of Elizabeth D. Van-Dyke against the city of Detroit has been discontinued at the request of the plaintiff.

City Counselor.

FROM THE SAME.

To the Honorable the Common Council.  
Gentlemen—The Michigan Mutual Life Insurance Company, between whom and the city a controversy has arisen over the amount of personal taxes which that company should pay, desires to pay in to the Receiver of Taxes the amount which they admit to be due, without prejudice to either party, leaving the city to take such course as to the balance as it deems proper.

I suggest that the Receiver of Taxes be directed to receive such amount, with the express understanding that the same is not in full, and that the proper legal officer be instructed to bring suit in the name of the Receiver of Taxes for the balance appearing upon the rolls.

JOHN W. McGRATH,  
City Counselor.

Accepted and the following was offered:  
By Ald. Jacob.

Resolved, That the Receiver of Taxes be and he is hereby authorized to receive from the Michigan Mutual Life Insurance company, to apply on account of the personal

Resolved, That the City Counselor be and he is hereby instructed to bring suit in the name of the Receiver of Taxes against the Michigan Mutual Life Insurance Company for the balance due by said company, as the same appears by the rolls in the office of the Receiver of Taxes.

## JUDICIARY.

To the Honorable the Common Council.

Gentlemen—Your Committee on Judiciary, to whom was referred the communication from the president of the Eagle Sanitary and Cremation co., relating to the infringement of their patents by the use of the furnace employed by Mr. Patrick for consuming garbage, would respectfully report that they have procured the written opinion of the City Counselor regarding the liability of the city, and submit the same herewith.

Your committee concur in his views, and recommend that the City Counselor be instructed to reply to the communication from the said company, explaining the relations between Mr. Patrick and the city, and the City Counselor's views as to the city's liability.

Respectfully submitted,

JOHN CHR. JACOB,

D. C. KELLOGG,

J. P. GILMORE.

The following is the communication:  
Hon. J. C. Jacobs, Chairman Judiciary Committee:

Dear Sir—You ask my opinion as to the liability of the City arising out of the claim made by the Eagle Sanitary and Cremation Company, in their letter to the Mayor of date September first.

The furnace used by Mr. Patrick is not owned or operated by the city. A patent can only be infringed by making, using or selling the patented device.

The contract with Mr. Patrick is to remove and consume the garbage, not by this particular process of incineration or any other specified process. The city is neither making, selling or using this device. Mr. Patrick is what is termed an independent contractor. He may use such devices as he chooses in the performance of the contract on his part.

It is a matter of utter indifference to the city whether he transports this garbage in a patented conveyance or consumes it in a patented crematory.

The city cannot therefore be held liable in this instance to the complaining company.

Very truly,

JOHN W. McGRATH,

City Counselor.

The following resolution was offered:  
By Ald. Jacobs.

Resolved, That the City Counselor be and he is hereby instructed to reply to the letter received by the Mayor from the president of the Eagle Sanitary and Cremation Co., explaining the existing relations between Mr. Patrick and the city and giving his views as to the liability of the city.

Adopted as follows:

Yeas—Ald. Amos, Bleser, Burt, Fairbairn, Finney, Gilmore, Griggs, Guiney, Hayes, Holihan, Jacob, Karrer, Kellogg, Lally, Lauder, McGuire, McIntyre, Martz, Meier, Peterkin, Pfeiffer, Reichenbach, Reschke, Reves, Tierney, Trombly, Uthes and the President—28.

Nays—None.

## SEWERS.

To the Honorable the Common Council.

Gentlemen—Your Committee on Sewers, to whom was referred the petition of Anthony Grosfield and John Schmitt, bondsmen for August Zander, asking that the difference between the estimated cost of a sewer on Grand River avenue, \$10,000, and which was constructed by August Zander for \$9,222.65, say \$777.35 be allowed them, as the contractor supposed, when he bid, that the city would furnish the water line as has been customary in such cases, respectfully report that after duly considering the matter we are unable to decide what action should be recommended. We therefore respectfully refer the whole matter back to your honorable body for such action as may seem best to you to take.

Respectfully submitted,

JOHN P. MARTZ,  
JAMES TIERNEY,  
JACOB F. MEIER.

Accepted and the following was offered;  
By Ald. Tierney.

## TAXES.

To the Honorable the Common Council.

Gentlemen—Your Committee on Taxes, to whom was referred the petition of Benjamin Fletcher, to be relieved from an alleged erroneous assessment, respectfully report that it was shown that a payment had been made, on the mortgage which was assessed, to the amount of \$336, but that fact was not reported to the assessors, and even if it had been, the money received was liable to assessment. While our sympathy is with the genial petitioner, we must recommend that his prayer be denied.

Respectfully submitted,

SEYMOUR FINNEY,  
GEO. F. REICHENBACH,  
JAMES TIERNEY.

Accepted and adopted.

## FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Taxes, to whom was referred the petition of W. C. Stoepel, to be refunded an assessment on property taken by the city in the opening of Superior street, respectfully report that it appears on the assessment rolls that the s.  $\frac{1}{2}$  of lot 7, outlot 4, Dequindre farm, is assessed, including the cottage, at \$1150. It also appears that the sum of \$1800 was awarded and paid by the city for the same. We do not consider that any injustice has been done, or any over-valuation made, as the property is assessed at \$650 less than the city paid for it. We recommend that the prayer be denied.

Respectfully submitted,

SEYMOUR FINNEY,  
GEO. F. REICHENBACH,  
JAMES TIERNEY.

Accepted and adopted.

## FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Taxes, to whom was referred the petition of Solomon F. Wood, guardian of James Smith, a minor, for relief from an alleged erroneous assessment, respectfully report that it was shown that he called at the Assessors' office, and had the assessment reduced from \$5000 and \$4000. His plea that he did not receive the mortgage until the 27th of April is of no avail, nor that the money was in the hands of an attorney for investment. As guardian, he was in legal possession, and controlled the property; and as he resides within the jurisdiction of the Board of Assessors, they would have been derelict in the discharge of their official duties, had they neglected to place the same on the assessment rolls. Nor does the fact that the money was loaned in another county (perhaps for the very purpose of avoiding taxation,) have any bearing upon the correctness or justness of the assessment. We recommend that his prayer be denied.

Respectfully submitted,

SEYMOUR FINNEY,  
GEO. F. REICHENBACH,  
JAMES TIERNEY.

Accepted and adopted.

## FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Taxes, to whom was referred the petition of Simon Gerber to be refunded an erroneous assessment, respectfully report that it appears he was assessed for a horse and two wagons valued at \$140 which were entirely consumed in the fire which destroyed the barn where they were kept; as the petitioner lives in Chicago, he could not examine the assessment rolls, and knowing that his property was destroyed, he was justified in supposing that it

would not be assessed. We recommend that his prayer be granted.

Respectfully submitted,  
SEYMOUR FINNEY,  
GEO. F. REICHENBACH,  
JAMES TIERNEY.

Accepted and on leave the following was offered:

By Ald. Finney.

Resolved, That the City Controller be and he is hereby authorized and directed to draw his warrant on the proper fund in favor of Simon Gerber for \$1.85 upon presentation and delivery of the receipt showing that he has paid the taxes on an assessment on personal property in the sum of \$140 for the year 1888.

Adopted as follows:

Yeas—Ald. Amos, Bleser, Burt, Fairbairn, Finney, Gilmore, Griggs, Guiney, Hayes, Hollman, Jacob, Karrer, Kellogg, Lally, Lauder, McGuire, McIntyre, Martz, Meier, Peterkin, Pfeiffer, Reichenbach, Roschke, Reves, Tierney, Trombly, Uthes and the President—28.

Nays—None.

#### PUBLIC LIGHTING.

To the Honorable the Common Council.

Gentlemen—Your Committee on Public Lighting, to whom has been referred various petitions and resolutions asking for and ordering additional tower and pole lights, respectfully report that the condition of the Public Lighting fund does not warrant us recommending any additional lights. The situation of the fund is as follows:

June 30, 1888	\$ 13,891 02
Bill of Lighting for June, 1888	9,951 75
Balance	\$ 3,939 27
Deduct Gas Inspector's salary	1,000 00
Leaving a credit to the fund of	\$ 2,939 27
Add amount of estimate for 1888	130,000 00
Total amount available for fiscal year 1888	\$ 132,939 27
Deduct contract for 1888	117,940 00
Leaves a balance of	\$ 14,999 27
Deduct cost of additional lights already ordered	12,236 00

Which leaves an ostensible balance of.....\$ 2,763 27 for further lights. We are informed by the Assessors and Receiver of Taxes that a very large amount of taxes on mortgages on property outside Wayne county will not be paid. The deficit is estimated at \$50,000. As the Public Lighting Fund is over 7 per cent of the entire estimate for 1888, it is readily seen that the fund is not in a condition to order any more lights at present. We recommend that all the petitions be denied, and that none of the resolutions be adopted.

Respectfully submitted,  
FERDINAND AMOS.  
FRANK SMITH,  
JACOB F. MEIER.

Accepted and adopted.

#### HEALTH.

To the Honorable the Common Council.

Gentlemen—Your Committee on Health, to whom was referred the communication from the Health officer in relation to an amendment to section 12, chapter 60, of the revised ordinances, respectfully report that we have considered the matter, and herewith submit an amended ordinance, which we recommend be adopted.

Respectfully submitted,  
LOU BURT,  
FRANK SMITH,  
JOHN MCINTYRE.

FROM THE SAME.

To the Honorable the Common Council.  
Gentlemen—Your Committee on Health, to

whom was referred a communication from the Health Officer, transmitting the preambles and resolution adopted by the Board of Health in relation to the use of well water in portions of the city which are supplied with water from our water works, respectfully report that it was shown that in the Fourteenth and Sixteenth wards since they were annexed there has been laid 23½ miles of water mains at a cost of say \$181,000; that the rates this year are but \$9104 in excess of those collected previous to annexation; and that in the Fourteenth ward, where pipes are laid, there are 170 houses not connected with the city's water mains; and in the Sixteenth ward there are 455 houses not connected. In view of the dangerous illnesses arising from the use of impure water we recommend the adoption of the ordinances presented herewith.

Respectfully submitted,  
LOU BURT,  
FRANK SMITH,  
JOHN MCINTYRE.

Sec. 2. No owner or agent of any building within the city shall permit the same to be occupied or used for residence purposes unless it is connected with the water mains adjoining said premises.

Sec. 3. COMMUNICATION.

DETROIT, September 25, 1888.

To the Honorable the Common Council.

Gentlemen—I would respectfully call your attention to the fact that the ordinance regulating the gathering and collection of garbage whereby citizens are required to deposit their garbage in receptacles is very frequently disregarded and it is thrown promiscuously by them into the alleys, and thus strewn and scattered upon the ground. A proper enforcement of the ordinance in this regard is earnestly desired; as thereby a much better condition of affairs in many localities would result, the contractor would be responsible for its prompt removal, and justice done all citizens who comply with the conditions of the ordinance in this respect.

Very respectfully,  
A. L. PATRICK,  
Contractor.

Accepted and referred to the Board of Health and Police Commissioners.

## FROM THE CLERK.

That his honor the Mayor has approved an ordinance to amend sections 1 and 2 of chapter 66 of the revised ordinances of 1884 relative to the Central Market.

## STREETS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Streets to whom was referred the petition of Charles Gnau for a part of the tax for paying Fourteenth avenue, respectfully report that they have examined the same and find that he is the owner of lot 389 of the Godfrey farm; that the lot has a frontage of 80 feet on Fourteenth avenue, but varies in depth from 75 at one side to 10 feet on the other; your committee are of the opinion that Mr. Gnau is entitled to a rebate of a portion of the assessment and recommend that one-third be refunded. The proper resolution is herewith submitted.

Respectfully,

J. HAYES,  
FRANK J. BLESER.

By Ald. Hayes.

Resolved, That the Controller be directed to draw his warrant on the proper fund in favor of Charles Gnau for the sum of seventy seven dollars and thirty-six cents (\$77.36) upon presentation and surrender of the proper receipts, showing that he has paid the assessment on lot 389 of Godfrey farm for paying Fourteenth avenue.

Laid on the table.

## FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Streets to whom was referred the petition of C. K. Brandon and others for the removal of the water tank at the northwest corner of Mt. Elliot and Jefferson avenues, respectfully report that they have examined the same and find that the same is in bad repair and is a nuisance to the neighborhood; your committee therefore recommend that the Board of Public Works be instructed to remove the same.

Respectfully,

J. HAYES,  
FRANK J. BLESER.

By Ald. Hayes.

Resolved, That the Board of Public Works be and they are hereby authorized and directed to remove the water tank on the northwest corner of Mt. Elliott and Jefferson avenues.

## SEWERS.

To the Honorable the Common Council.

Gentlemen—Your Committee on Sewers to whom was referred the petition of Louis P. and Abel Petrequin remonstrating against the construction of a lateral sewer in the alley bounded by National, Harrison, Merri- crik and Kirby avenues, respectfully report that we have considered the matter, and as we believe there is a necessity for said sewer

we recommend that the prayer of petitioners be denied.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Sewers, to whom was referred the petition of Robert Wallace and eleven others remonstrating against the construction of a lateral sewer in the alley bounded by Trumbull, Commonwealth, Merrick and Kirby avenues, respectfully report that we have considered the matter and believing that there is necessity for said sewer, recommend that the prayer of the petitioners be denied.

TAXES.

To the Honorable the Common Council.

Gentlemen—Your Committee on Taxes, to whom was referred the petition of Frederick B. Howard, for the refunding of an assessment on \$17,000 personal property, respectfully report, that it appears that the petitioner, as executor of an estate, received \$17,000 cash, of which he invested \$12,000 in mortgages. The balance he invested in bank stock \$1,500, and a house and lot \$3,500, which he purchased in his own name individually. He now asks to be relieved from the assessment on the \$5000 last mentioned, claiming that he pays the taxes thereon personally. He should have informed the Assessors of the disposition which he had made of the trust funds in his hands, and had the assessment adjudicated at the proper time. It is too late, after the Council has approved and adopted the rolls, to ask for the correction of alleged irregularities. Ignorance of the law is not an excuse. We recommend that his prayer be denied.

Respectfully submitted,

SEYMOUR FINNEY,  
JAMES TIERNEY.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Taxes, to whom was referred the petitions of James Bothwell and Mary Rothwell, asking to be refunded a portion of a paving assessment, respectfully report that between them they own the entire front on Porter street, for the paving of which they are assessed. Abutting property must be assessed for paving done in front of it. It is not the Assessors' or City Engineer's fault that the abutting property is not deeper than it happens to be in this case. The paving must be paid for and the property is liable. We sympathize with the petitioners, but see no other course to pursue than to recommend that their prayers be denied.

Respectfully submitted,

SEYMOUR FINNEY,  
JAMES TIERNEY.

Accepted and referred to the Committee on Streets.

STREET OPENINGS.

To the Honorable the Common Council.

Gentlemen—Your Committee on Street Openings, to whom was referred the petitions of Geo. S. Adams for the approval of several plats, respectfully report that they have carefully examined the same and recommend that the plats of parts of the L. Beaubien farm and Ferry and Lyster's plat of blocks 82 to 88 inclusive of the A. Beaubien farm and Ferry and Moran's plat of blocks G, H, I and J and part of F of the Charles

Moran farm, there being no objection to the same, be approved, and herewith submit the proper resolution.

Respectfully,

WILLIAM O'REGAN,  
FERDINAND AMOS,  
JAMES HARTNESS, JR.

By Ald. O'Regan.

Resolved, That the Board of Public Works be and they are hereby authorized to approve D. M. Ferry's subdivision of outlot 194 and lot A of T. W. Palmer's subdivision of outlot 196 of the L. Beaubien farm, and E. C. Van Husan's subdivision of outlot 195 and parts of outlots 198 and 197 of the L. Beaubien farm and Ferry and Lyster's subdivision of blocks 32, 34, 35, 36, 37 and 38 of the Antoine Beaubien farm, and D. M. Ferry and J. V. Moran's subdivision of blocks G, H, I, J and the north half of block F of the Chas. Moran farm.

Laid on the table.

Ald. Hayes was excused from further attendance on this session.

SPECIAL.

To the Honorable the Common Council.

Gentlemen—Your Special Committee, to whom was referred the communication from the petitioners in the so-called Barbour-Sprague Street railway franchise case, in reference to paying a cash bonus of \$50,000.00 for the franchise, or paying 1 per cent on gross earnings and giving reduced fares, would respectfully report that we have given the matter careful examination and submit the following for your consideration:

We believe that if a franchise were given to this company under the reduced fare proposition, that the competition would compel almost every other line in the city to adopt the same rate of fare, and we therefore feel justified in calculating that all lines will sell tickets at the rate of six for 25 cents and eight for 25 cents, and we have made our comparisons on that basis. We have also included figures based on the items being considered as investment funds, as that which the people now spend for car fare, if saved, could be invested so as to earn at least 4 per cent, and in most cases probably would be so treated.

A \$50,000 cash bonus, if applied in payment of city expenses, would yield 32 cents on each \$1.00 of property, and would, if invested, amount at the end of 21 years to \$114,765. The reduced fare would save each person riding twice a day during the hours in question about \$4.25 a year, or on the investment basis, about \$200 in the 21 years.

Three thousand dollars per annum, estimated as the receipts from the tax of 1 per cent on gross earnings, invested, equal about \$98,287.

The saving on reduced fare is estimated at \$12 per day or \$75,600, without interest, and about \$111,945 with interest.

We thus find that the city and the patrons of the road jointly would receive on the reduced fare basis, without interest, \$98,000, and with interest \$93,467 more than would be received if the \$50,000 offer were accepted.

To the receipts from this line should be added the saving to the people that would follow on account of reductions in fare on other lines, which figured on the basis that about 8000 passengers ride during the low fare hours, would amount without interest to about \$562,200, and with interest to about \$901,503, making a total revenue and saving in the one case of about \$730,800 and in the other of about \$1,109,735.

The competition would also force the other companies to give change-off tickets which would slightly increase the above figures.

In view of the foregoing, your committee unhesitatingly recommends the declination of the \$50,000 cash bonus, but does recommend the acceptance of the second proposi-

tion, with an addition that tickets good for passage at any time shall be sold at the rate of six for 25 cents, believing that the same will benefit our citizens and the city to an amount of not less than \$1,000,000, no matter in what way figured.

We do not claim that the figures presented are absolutely correct, but are approximately so and near enough to permit of their use, as an aid to this body in coming to a definite conclusion in regard to the franchise.

Respectfully submitted,

S. A. GRIGGS,  
WILLIAM O'REGAN,  
GEO. F. REICHENBACH,  
J. P. GILMORE,  
J. HAYES.

Accepted and adopted.

To the Honorable the Common Council.

Gentlemen—I learn through the public press that a committee of your honorable body will recommend the removal of the Recorder's Court from its present location to the proposed new police court building. Before taking such an important step, I desire to call your attention to the following, among other reasons, why, in my judgment, the change should not be made.

The business of the court is not entirely criminal; a great many people necessarily attend in the trial of street opening and ordinance cases and they would object and justly so, to being compelled to come in contact with persons who as a rule frequent police courts. It is also considered by those who have given the matter attention that it is better to have higher criminal courts removed from the jail and its immediate surroundings; it is more conducive to fair and impartial trials. Courts of record, not only for the convenience of the bar but for litigants as well, should be located as nearly together as possible.

In the trial and preparation of street opening matters, the records, etc., in the offices of the Register of Deeds, City Engineer and others, are very often necessarily consulted and they should be conveniently at hand.

Persons interested in property frequently find it necessary to consult the street opening files in the Clerk's office.

The City Attorney prepares all complaints for violations of the city ordinances, and it would be an endless source of trouble and annoyance, as well as loss of time, to have him located three-fourths of a mile from the court, unless it is also intended to move him into the new building, which is hardly probable.

The present detail of police for the Recorder's Court, also serve all notices for city officers, and their removal to another building would necessitate an additional detail of two or three men for the latter service at an added expense.

All the street car lines in the city pass within a stone's throw of the City Hall, and the present location of the court is far more accessible and convenient for persons having business to transact than the one proposed.

Respectfully submitted,

GEORGE S. SWIFT,  
Judge of Recorder's Court.

Laid on the table.
